No. 1240. Pkt. 15c Postpaid.

MURVON SEED CO. SO. NORWALK, CONN.

Some New and Worth While Flower Seed's of Merit

New Sweet-Scented Nasturtium Double Golden Gleam

This Double Sweet Scented Nasturtium is something new

and will delight all flower lovers. It is as easy to grow as other Nasturtiums and a wonderful bloomer.

The large DOUBLE flowers, especially those of a soft primrose color, are exquisitely sweet scented. Colors range from a pearly lemon shade to brilliant scarlet. The orange and scarlet flowers grow to a size never before seen in these

The plant forms a vigorous large bush which throws out short runners averaging 18 inches and the flowers begin to come soon as the plant nears development.

come soon as the plant nears development.

When in full bloom it is a blaze of color of golden sweetscented double flowers on erect stiff stems, standing well
above and almost completely covering the foliage.

This Double Golden Gleam Nasturtium is praised everywhere
for its beauty and fragrance, attracts a great deal of attention wherever exhibited, and should be grown in every
flower garden. An ordinary bouquet of blooms brought indoors, will fill a room with fragrance within a short time.

It is desirable to grow in a window box, also excellent fot
a not plant by climping the runners, which make it a round-

pot plant by clipping the runners, which make it a roundinass of flowers.

No. 1238 Pkt., 19c; 1/2 ez., 35c; ed mass of flowers.

Murvon's New Dahlia Seed

An entirely new introduction and we are offering it after a very careful test. It is as easily grown in the Amateur garden as the Zinnia, blooming from Seed the First Year even when planted as late as May 1st. Its wealth of blooms in a large Color range, making it a very practical and Beautiful Garden Flower. It is a quilled type resembling the Cactus Dahlia. The root slips may be saved, and kept over winter to be planted again in the spring. Single blooms are often over 4 inches in Diameter.

Mixed Colors. No. 1239 Pkt. 15c Postpaid. An entirely new intro-

Grow Lilies From Seed

One of the most wonderful Lilies in existence. Flowers within six months from seeds. Seeding of March already coming into flowers in September the same year. Under modersame year. Under moderate climate keeps on flowering continuously year after year. After the flowers are over, new suckers come out from the same bulb and the bulb it-self increases. Will have self increases. self increases. Will have as many as twenty flowers on a single stem under proper culture. Flowers are of purest white tinted purple outside, about the same size and form as Easter Lily. Delightfully fragrant. No. 1237 Pkt., 15c

Japanese Rose Seed

A really Remarkable Seed that in 8 Weeks produces a Tiny Rose Bush that will flower. We have bushes that were grown from Seed that have literally thousands seed that have literally thousands of Roses on them. They are Perfectly Hardy and they can be planted in the open ground and the frost will not hurt them. In the open we advise for the first year that they be protected by putting a little bay, leaves or literature and they are the same designed. ter around. They make an Ideal House Plant until they are about 3 years old. They then become too large for inside and should be placed in the open. Pkt. 10c. Postpaid.

All Double Giant Petunia Produces 100% Double Flowers

100% Double-flowering Pertunia in Giant Fringed type is one of the most outstanding discoveries of outstanding discoveries of recent years. We have tried our special strain in our Trial Ground dozens of times but each test found to be absolutely true-to-name. Moreover, in our strain, if you save the seedings includall of the seedings includ-ing the weakest, the per-centage of small-flowing doubles (which are com-monly called Carnation-flowered) does not exceed more than 22%, the re-matured will be all large-flowering well fringed double The flowers are very large, often measuring 5 large, often measuring 5 inches across, exquisitely ruffled and fringed and contain vast range of many brilliant and intermediate colors. No. 1236. Pkt., 28c.

New Wilt Resistant Asters

For years we have been specializing on an Aster that was truly Wilt Resistant. We are now safe in saying that we have now developed an Aster that is really Resistant to the Fusarian Wilt Disease, a disease that has always been very difficult to overcome once it has made its appearance. The Fusarian Wilt has been one of the chief, in fact the chief trouble to both home and professional gardeners in the raising of Asters. Be sure to raise this New Wilt Resistant Strain. Asters are still the most popular of our Anuals. Our giant Crego's compare to Chrysanthemums in Size and Beauty, flowers often measuring 4 to 5 inches across. Selected Seed. ..No. 1233 Pkt., 15c., 2 for 25c. Postpaid.

IMPORTANT ANNOUNCEMENT!

This Seed Book is the only advertising matter we shall send out this year and cancels all previous prices.

Owing to so many State and Federal restrictions and quarantines, which usually delay shipments reaching our customers and result in dissatisfaction, we are not offering any Nursery Stock this year.

HOW TO ORDER

Please use our Order Sheet when ordering and be sure to write your name and full address plainly. Generally speaking we advise our customers to use a Post Office or Express money order. If you send cash see that it is properly wrapped. Large amounts in cash or stamps should be registered. We cannot accept foreign coin or postage stamps.

HIGHEST OUALITY

Murvon's Seeds are sold as low as First Class Seeds can be sold. They are of the Highest Quality both as to Variety and Germination. Seeds are tested both in our Trial Grounds and our Laboratory. Better Seeds cannot be bought anywhere so why pay more? Always Remember that Very Cheap Seed is Dear at any price.

FREE DELIVERY

We deliver Postpaid to any Post Office in the United States every article listed in this catalog. Our terms are strictly cash with order which accounts for our low prices, and you run no risk in sending money with order. This is our Policy since 1888. We can refer you to thousands of customers all over the world.

We exercise the greatest possible care in fillwe exercise the greatest possible care in filling all orders, striving to do always better than we promise. However, we are only human and in the Spring rush, errors will sometimes, tho very rarely, occur. In such a case let us know promptly and we will immediately correct it to your complete satisfaction.

E. J. MURVON

Murvon's Double Guarantee of Satisfaction

FIRST-We Positively Guarantee all seeds and bulbs sold by us both as to Vitality and Purity. We also guarantee them true to name and will replace, free of charge, any that may prove otherwise through a possible error. Even with the High Quality of Murvon's Seeds success depends largely upon soil, not too deep or shallow planting, weather conditions, etc. these are beyond our control. It is therefor agreed that in no case shall we be liable for more than the amount actually

paid us, and if not accepted on these conditions, they must be returned at once.

SECOND—We Guarantee the safe arrival of your order and should anything be damaged or lost on the way we will refill when proof is furnished. Murvon's guarantee protects you at all times.

Murvon's Lawn Grass Seed

For a permanent lawn you must sow perennial grasses, which are relatively slow to germinate, but produce a lasting turf. Cheap mixtures cannot contain the seeds of such grasses, but are largely composed of timothy, a coarse annual hay. Our standard blends are composed of recleaned, tested seeds, and cover twice the area, for weight, that cheap seed cover. Sow 1 lb. for 300 square feet for new lawns. half that for repairs. "How to Make a Lawn," enclosed with each carton, answers every question about lawn making.

Murvon's Shady Nook

In shaded places and especially under trees, this mixture produces a beautiful green lawn, because it is composed of those varieties growing well in partial or full shade, making a rapid and lasting growth. Use one lb. for every 300 sq. ft.

Price, ½ lb. 30e; lb. 55e; 2 lbs., \$1.00; 5 lbs., \$2.35;

10 lbs., \$4.50; 25 lhs., \$10.50, postpaid.

Murvon's Velvet Green Lawn Grass Mixture

Recognized the country over as the very finest quality. Sow in spring or fall, 1 lb. for 300 square feet. Contains only the highest grade of grasses suitable for the purpose of making a beautiful, durable. lasting lawn. Our Lawn Grass Seed germinates quickly, roots deeply. This enables it to withstand the intense beat of summer and the bard cold of winter, showing a beautiful, rich green from snow to snow. It contains no annual grasses for making a quick show, to the detriment of the permanent lawn, but has only those which are lasting and hardy. When a lawn is once established from our seed, it lasts for years. From six to eight weeks' time is all that is required to form a close, thick turf of rich velvety green. One pound sows 300 square feet very nicely. For a perfect and enduring lawn of closely interwoven, firm, elastic turf, which will flourish under varied conditions of soil and climate, and show a luxuriant growth throughout the year.

½ lb., 28ets; lb., 50 ets; 3 lbs., \$1.40; 5 lbs. \$2.25, postpaid

Insecticides Fungicides and Fertilizer

Red Arrow

GUARANTEED to kill rats, mice and Gophers and nothing also when used according to

else, when used according to directions.

50e per package, postpaid.

Some New and Unusual Vegetable Seed's

Vegetable Spaghetti

This remarkable vegetable, which belongs to Cucumber family, grows and sets fruits freely just like Squash.

The smooth creamy white skinned fruits look something like Vegetable Marrow but with more symmetrical long oval shape. They measure about 8 in. long and about 4 in in diameter.

diameter.
You pick the fruit when well matured and cook it (as whole fruit without cutting or skinning) in boiling water for about 20 minutes, take it out and cut as shown in the picture, and you will find a quantity of stringy Spaghettilike contents which is delicious when seasoned with vinegar, sauce, or cooked in other ways.

The fruits have wonderful keeping quality as they can well be stored until late spring.

The following three points are important.

1. Do not pick fruits too young. Leave them until fully matured.

matured.

2. Before cooking, do not skin or cut the fruits. They must be cooked as whole.

3. Do not cook the fruits too long as this will soften the stringy texture of the contents.

No. 6016 Pkt., 15c; 2 for 25c. Postpaid.

Sweet Bunching Onion (He-Ski-Ko)

A really. Delicious green eating Onion or Scallion. It A really Delicious green eating Onion or Scallion. It is a recent importation from Japan and is grown for us by a famous Japanese grower. We tried this out last year in our trial grounds and the results more than warranted our placing on the market this delicious and valuable addition to the Vegetable Garden. We found it to be Perfectly Hardy, Sweet and Tender. It will do well from Florida to Michigan, something very rare in an onion of this type. We know of no other Onion that blanches so well, Very easy to grow. Seed sown in the spring will give an abundance of fine eating onions thru-out the Fall and Winter. We have tried this out very earefully before offering it to We have tried this out very carefully before offering it to our customers and if you like Onions or Scallions do not fail to include this in your order. No. 6014 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 75c

New Wonder Gourd Gourd Luffa or Dish Cloth

If you are looking for Novelties for your garden here is one that is Hard to Beat. It will undoubtedly cause more Comment than anything you could possibly grow. The Fruits are Edible if cooked in the early stage of growth nad when fully ripe the Fibre may be ly ripe the Fibre may be used for Dish Cloths. Young Fruits of this Giant Luffa grow to an sstounding length, sometimes over 10 feet when the vines are train-ed over a tall trellis so the fruits can hang down as shown in this Photo. When the fruits are dis-turbed by something durturbed by something during the growing period they start to wind and form many Fantastic Shapes and Sizes. It is a Real Curiosity and Useful Plant. Very interesting to grow.

No. 6015 Pkt. 15c. 2 Pkts. 25c Postpaid.

Wonder Radish Overnite or

It almost seems
"Overnite," for "14 days
is surely a short time.
Unquestionably one of
the earliest radishes
grown. It is practically
leafless, having usually
only two small leaves,
hence its earliness. Although bred for extreme
earliness, it is conceded
equally as tender as the
tenderest radish grown.
It is very globular in
shape, extremely mild.
Unusually crisp, cool,
tender and sweet. Delightful flavor, strikingly
handsome on the table.
Devoid of pithy, woody
substance. Keeps its tenderness and freshness for a prolonged period. No. 4016 Pkt. 10c; 3 for 25c; ½ lb. 60c;

Climbing Watermelon

Melons about the size of large cocoanuts and of the highest quality. Fruit ripens for a long period, unlike other sorts which ripen their fruits mostly at one time. The vine may be allowed to trail on the ground or may be trained and tied to trellis. An ideal melon for the small warden. garden.

These melons start to bear early and continue right on during the entire season. The flesh is exceptionally sweet. The fruits are about the size of cocoanuts and weigh anywhere from 4 to 6 lbs. No. 6013 Pkt. 10c; 3 for 25c. Postpaid 1/4 lb. 17c.

Chinese White Celery (Pac-toy)

This looks comething like iniature Swiss Chard but miniature Swiss belongs to Mustard family. It grows up about one foot with heavy dark green glossy foliages. The stems are large and white. Both leaves and stems are exceedingly tender and tasty when cooked. This may come out as one of the most useful vegetables when generally known to the pub-

Plantation in early September is recommended but can also be sown in early spring. No. 6012 Pkt. 10c; 3 for 25c. Postpaid.

NORTHERN GROWN VEGETABLE SEEDS.

BEANS—Bush Varieties

What is more delicious than fresh, brittle, stringless beans right from your own garden? Beans are among the comparatively few vegetables that will yield well in even poor soil, although, of course, greatest crops are gathered in moderately rich loam. They should not be planted until the soil is quite warm and all danger of night frosts is past. Never walk between the rows or attempt to cultivate them nor to gather the crop while the vines are wet. It will spread rust, and the leaf spot disease. Drop seeds 4 inches apart in the row and cover with from 2 to 3 inches of soil, leaving 2½ feet of space between the rows. One pound of seed will sow ahout 100 feet of row. For a constant supply for a family of five, sow 30 feet of row every other week from May 1st until July 1st. Prices are postpaid except where noted otherwise.

Bountiful

Earliest Green Pod Bean and a Continuous Bearer

This superior variety is of thrifty growth, very hardy and practically rust and mildew proof. It bears continuously for several weeks, being the first to give pods to pick in the spring and the last to yield edible pods in the fall. Under favorable conditions of soil and season this variety has been known to bear one bushel of pods per 15 foot row, in the course of the season. The large green pods are thick, broad, flat, extra long, very uniform in shape, solid, meaty, and of high quality, tender, of delicious flavor and absolutely stringless. Ready for picking in 38 to 42 days. No. 4087. Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 75c; Postpaid

Full Measure

Full Measure is decidedly the hest round podded, stringless, dwarf green bean in existence, and on account of its superior quality, it is especially desirable for the home garden. It begins to bear with the second early sorts, the heavy pods producing throughout a long season. productive; pods average 6 inches long, fleshy and absolutely stringless.

No. 4088. Pkt. 10c; ½ lb. 25c; 1 lb. 35c; 2 lbs., 60c, Postpaid.

Giant Stringless Green Pod The Best of the Green-Podded

This famous stringless bush bean is the finest of all green-pod bush beans. The plants are medium height and the beans are medium in length, alway tender and stringless. The most delicious beans are those that are gathered as soon as possible. Don't wait until they are too large, This hean is a very dependable yielder under all conditions, and always gives satisfaction. Matures in 50 days. No. 4089. Pkt. 10c; 1/2 lb., 25c; 1 lb. 35c; 2 lbs. 60c, Postpaid.

Giant Stringless

1200 to ONE BEAN

Over 200 pods have been grown on a single plant—all well filled, producing over 1,200 beans from one bean. Strong, erect plants, bearing pods well up from the ground.

Not a snap Bean, but the most productive Winter shell Bean for baking. The plants are very robust, branching freely and produce great quantities of pods in clusters, well filled with nearly round, pure white beans of the best quality. They ripen evenly and with good cultivation will mature the crop for harvesting in about 75 days with favorable weather conditions.

No. 4067 Pkt. 10e; 1/2 lb. 25e; 1 lb. 40e; 2 lbs. 75e; Postpaid.

WE PAY THE POST-AGE on all orders,

Murvon's Early Wonder Wax THE EARLIEST WAX BEAN KNOWN

Early Wonder Wax belongs to the eval podded class and grows a strong plant, 18 inches high and 2 feet across It is well loaded with pods, 5 to 7 inches long; flat, plump, handsome and meaty, of a clear, waxy yellow color. As to quality the pods are tender, brittle and of fine texture. This is the earliest wax-podded bean; ready to pick in 35 to 40 days. Practically rust-proof; a bountiful yielder, in bearing for a long season; an ideal bean for the home garden and a real money maker for the market gardener.

No. 4090 Pkt. 10c; 1/2 lb. 25c; 1 lb. 40c; 2 lbs. 75c; Postpaid.

Sure Crop Stringless Wax A Most Prolific Variety of Fine Quality

The handsome rich yellow pods are slightly curved, averaging 6 to 7 inches in length They are almost round, 1/2 inch wide, very meaty and sweet, and perfectly stringless at all stages. The habit of the plant is free branching. but sturdy and upright, every branch carrying a heavy crop of the magnificent pods. Valuable for its productiveness and disease-resisting qualities. It is classed as an early variety. No. 4091 Packet, 10 cts; ½ lb. 25cts; 1 lb., 40 cts; 2 lbs. 75 cts; Postpaid.

Early- Wonder

Murvon's Everbearing

BEANS—Pole Varieties

Pole Beans are much heavier yielders than bush varieties. When properly staked up for vines to run up they require less room than the bush varieties. Hence, are largely used for small gardens, where the space is limited. Many claim the quality better.

Culture. Do not plant Pole Beans until the ground is warm, and the weather settled, after all danger of frost is past—about May 1st. Set poles about 4 feet apart each way and put 6 beans around each pole. We are offering here the very best varieties of Pole Beans. One pound will plant 200 hills.

Murvon's Everbearing Bean

Murvon's Everbearing or Everbearing Kentucky Wonder is without exception the finest flavored snap bean grown. The green pods, seven to ten inches long, are so fleshy they are often greater in thickness than width. They are solid, meaty, and very crisp. They commence bearing exceedingly early for a pole or climbing sort, and if pods are gathered as they mature the vines will continue to hear until killed by the fall frosts. This is one of the few pole beans that will bear a satisfactory crop without being poled. It will not produce as large a crop if grown without poles but will be more productive than any of the dwarf sorts. By planting a few hills in your corn, the corn stalks will act as a support for the vines, and you will get a good crop of both corn and beans.

No. 4034 Pkt. 19c; 3 Pkts. 25c; ½ lb. 30c; 1 lb. 55c.

Kentucky Wonder Wax

KENTUCKY WONDER WAX. The best pole wax bean for all localities. Similar in habit of growth to the green podded Kentucky Wonder, and bears as early, or when about as high as the average bush bean. The pods are so fleshy that often the thickness surpasses the width. Of most delicious quality, a heavy yielder and bears a long season. No. 4035. Pkt. 10c; 3 Pkts. 25c; lb. 40c; 2 lbs., 70c; 10 lbs. \$3.05

Scarlet Runner

A popular Pole Bean of extremely good quality. Serving as it does a double purpose it is often grown as an ornamental vine. The vine bears large brilliant scarlet flowers borne in great clusters, these in turn are followed by large, green pods, filled with beans of a delicious flavor. It also is a very good snap bean, A fine bean for the home garden.

also is a very good on the for the home garden.
No. 4036 Pkt. 10c; 3 Pkts. 25c; ½ b. 35c;
1 lb. 50c.

Golden Cluster Wax Pole

ror a Wax Pod Pole Bean, Golden Cluster is the best we can recommend. Produces great numbers of handsome, waxy pods 7 to 9 inches long, thick, fleshy and of delicious flavor. When frequently picked vines bear continuously until late in the Pall, first pods being ready for use in about 75 days. For a Wax Pod Pole Bean, Golden Clus-

No. 4037 10c; 3 Pkts. 25c; ½ lb. 32c; lb. 55c.

Murvon's Mammoth Bush Lima Very Earliest Large Seeded Bush Limas

The plants are vigorous and productive. The pods are medium green, very large, about five inches long, thick and usually contain four beans, which are unusually thick, of largest size and of excellent quality. Seed very large, thick and usually shows a greenish white tinge which is generally considered an indication of superior quality. One of the best and most extensively used bush limas for the market as well as home garden.

No. 4038 Pkt. 10c; 3 Pkts, 25c; ½ lb. 32c; 1 lb. 55c.

Broccoli

LIMA BEANS—Bush Varieties

Lima Beans should not be planted before the soil has warmed up and the weather quite settled. Place the eye down, about 5 inches apart in rows 2½ feet apart and cover with 1 inch of soil. One pound of the seed will sow a row 100 feet long: ¾ bushel will plant 1 acre.

Fordhook Bush Lima. (See illustration.) Many years of study and experiments have enabled us to markedly improve this wonderful variety.

There can be no conflicting of opinions as regards which is the best variety, as it is universally agreed this is the best. It has so many virtues any one of which would in itself be a prime attribute for commendation, viz.: It has an everbearing habit of growth that permits it to tear all season. It is extremely early, the bears until late frost. The pods are immense in size. It is exceptionally prolific. It is of finest flavor. Is big, fat and juicy. Vines frequently bear half a hundred pods at one time. The pods are long, wide and thick. Plants are 2½ feet across. Usually bears in clusters of 4 to 8 pods. It is the most popular of the Limas. The best for the commercial grower. The best for the home grower and by far the one best suited to the amateur. No. 4040 Pkt. 10c; ½ lb. 32c;

BROCCOLI

ITALIAN EARLY SPROUTING CALABRESE. A delicious variety which resembles Cauliflower, but is of more delicate flavor, having the combined flavor of Cauliflower and Asparagus. It is grown about the same as Cabbage. Simply sow the seed in the open ground in the spring and transplant the plants when large enough. The heads or sprouts when ready to use are deep green. After the central head is removed, the plant produces numerous branch heads which are fully as desirable as the first head produced. A continuous supply may be had for a long time from a few plants. While the sprouting type of Broccoli is of recent introduction, it is rapidly gaining in favor, and is a very profitable crop which finds ready sale at good prices in city markets. We have taken pains to secure seed of the very best strain. No. 4039 Pkt. 10c; 3 Pkts. 25c; oz. 50c; ¼ lb. \$1.50

BEETS—Table Varieties Detroit Dark Red Main Cropper

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very early, nearly as early as Egyptian, and greatly passes that variety in flavor. The color is rich, dark red, and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop, or for use in winter, as it is a good keeper. It cooks sweet, tender and crisp, and is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing.

No. 4041 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 30c; 1/2 lb. 55c; 1 lb. \$1.00

Crosby's Egyptian

Deep red, almost black in color; an improvement over the old Egyptian, being sweeter, more tender, smoother, and also more round in form and larger, although equally as early. The most desirable sort for small Beets for early market. It is a very rapid grower and can be sown outside as late as July. Our strain is extremely early, and very uniform in shape and color.

No. 4042 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 28c; 1/2 lb. 55c; 1 lb. \$1.00

Detroit Dark Red

Early Wonder

EARLY WONDER. A variety which has gained wide popularity among market gardeners, and one which the amateur may also grow with every confidence. It may be sown early, and it matures very rapidly. It is so uniform in growth that the crop can be lifted practically at one time, making it possible to use the land for a second crop. The root is nearly globular in shape, slightly flattened. The leaves are of medium size, and the color of the flesh is deep blood-red; sweet and free from strings. and free from strings.

No. 4043 Pkt. 10c; 3 Pkts, 25c; 1/4 lb. 35c; 1 lb. \$1.00

New Winter-Keeper Beet

A distinct Strain of Globe shaped Beet produced by a Grower who takes particular pride in striving after high IDEALS in seed selection. Two leading characteristics makes this beet worthy of any gardener's time and space. The uniformly excellent Flavor of its flesh at all stages of development and the remarkable manner in which this quality is preserved during Winter storage. The flesh is sweet and tender at all stages of growth. May be stored in a pit or cellar until spring and when taken from storage will actually COOK MORE TENDER AND SWEET than ordinary varieties will when taken from the Garden.

No. 4076. Pkg 10c; 3 Pkgs. 25c; ½ lb. 35c; 1 lb. \$1.10.

To have carrots throughout the season, make repeated plantings. Put the rows 24 inches apart and as soon as the seedlings are 3 or 4 inches tall, they should be thinned out to stand 3 inches apart in the row.

Coreless Carrot

At last we are able to introduce a CARROT that is absolutely WITHOUT A CORE. A Carrot that is as TENDER when boiled as a sweet potato. A Carrot with a DELICATE FLAVOR of its own. This is such a great improvement over the other Carrots that we predict its GENERAL USE in a few years. To get rid of the hard center or CORE of the Carrot has been the dream of the VEGETABLE EDISONS for a long while. We assure you that this dream is now a REALITY. It not only has no core but is more TASTY than any Carrot we have eaten. One packet will convince you. We suggest that you use no other kind for your ENTIRE CROP this spring. Needs no more care than other Carrots.

No.4102 Pkg. 10c; 3 Pkgs. 25c; 4 lb. 75c; 1/2 lb. \$1.25.

Winter Keeper Beet

Chantenay Carrot

Oxheart

Ox Heart. This is an excellent car-rot, very free from hard cores or fibre and of very excellent quality. Grows rather wide and stocky, measuring 3 to 4 inches in length, and stump-rooted, On account of its thickness it frequently reaches 2 lbs. in weight and consequently is much used by farmers for stock feeding purposes. It is a deep orange in color. Very tender and sweet. No. 4044 Pkt. 10c; oz. 15c; 1/4 lb. 30c; 1 lb. 95c.

Chantenav

Chantenay, or Half Long Model. (See illustration above.) This is one of the very choicest for the home garden. It has a very delicate flavor, comparatively small tops, and ready within 60 days from date seeds are sown. If you are choosing one carrot only, take this one. You can't go wrong with it.

No. 4119 Pkt. 10c; oz. 15c; 1/4 lb. 35c; . 1 lb. 95c, Postpaid.

Coreless Carrot

Early Snowball

Cauliflower

SNOWBALL-Extra Early It Heads Where Others Fail

Unquestionably the earliest maturing strain of the true, short-leaved snowball type of Cauliflower. It is admirably adapted for forcing or wintering over for early crop and is the most popular sort for these purposes, also one of the best sorts for late summer and fall crops. Early Snowball is, moreover, a most desirable sort for the home garden. The plants are compact, with few short, outside leaves and are well suited for close planting. The heads are of medium to large size, solid, compact, round, very white, and curdlike and are developed earlier than those of any other sort.

The seed we offer you is of the highest possible quality "Grown in Denmark."

No. 4072. Pkt. 15c: 3 Pkts. 40c: 1.07. \$1.75.

No. 4072. Pkt. 15c; 3 Pkts. 40c; 1 oz. \$1.75.

Dry Weather

Best for localities subject to long, dry seasons when all other varieties would be a failure If given high culture it will produce large, solid, pure white heads of the most delicate flavor. As it is more vigorous than Snowball, it is especially good for high ground, Matures in about 110 days.

No. 4073. Pkt. 15c; 3 Pkts. 40c; 1 oz. \$1.75.

CELERY

Two Ounces of Seed to 100 Yards of Row.

Sow thinly just before the Apple is in bloom on a finely raked, well-pulverized piece of ground, in a moist place or convenient to water, which apply freely during dry weather The seed should not be covered more than a tenth of an inch.

Murvon's Golden Self Blanching

One of the Best and Most Popular Sorts—Does Not Need Any Blanching
This grand variety grows 18 to 20 inches high, is wonderfully stocky,
very heavy, perfectly solid, of desirable flavor and good keeper. The
color is a rich golden yellow. It can be easily blanched by drawing the
leaves together and bringing the earth up around the plant. For fall or early winter use this has no superior.
No. 4074. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. \$1.50

Easy Blanching

Easiest and Quickest to Blanch; Long Keeping
The heavy stalks are stocky in growth and of medium height and are
the easiest and quickest to blanch and keep better in the trench than
other sorts The tender, brittle, sweet, nutty flavored stalks are attractive
in appearance. Ready for the table or market in about 115 days. Grown to
the exclusion of other sorts by many growers.

No. 4075. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 90c.

Dry Weather Cauliflower

Golden Plume Celery

The earliest and handsomest Celery grown. A new variety of Celery. The plants are of strong growth and produce thick and heavy stalks with a well blanched solid heart. It is considered by many gardeners absolutely the earliest maturing Celery grown. It is large, vigorous, and appears to be immune to blight and rust. Highly recommended on account of its ease of culture—it requires no banking. Its attractive appearance when fully matured is most inviting; the foliage is creamy yellow, and the stalks creamy white, becoming almost white at the base. It is entirely devoid of any ribs or fiber, and it is brittle, tender, and deliciously flavored. No. 4077 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. \$1.75

CELERIAC (Turnip Rooted Celery)

The edible portion is the large, swollen root, which is highly valued for salads, for boiling and for flavoring soups, stews and other dishes. Celeriac boiled until quite tender and served cold with a French dressing is one of the most wholesome and delicious salads imaginable. Seed should be sown and given the same treatment as celery, except that no blanching is necessary. Roots are fit to use when about 2 inches in diameter. Will keep all winter like beets and carrots if packed in moist earth or sand.

GIANT PRAGUE. The best variety of Celerias, or Turnip Rooted Celery, producing large roots of nearly globular shape. No. 4078. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 75c; 1 lb. \$2.50. Postpaid.

Celeriac

Murvon's Golden Self Blanching

CABBAGE

Set aside one corner of the garden this year for slaws, salads, pickles, suerkraut, etc. Golden Acre, Jersey Wakefield, Surehead and Ballhead, sown at the same time, will give a succession crop throughout the summer. Six ounces sow one acre, one ounce produces 3,500 plants.

Cabbage seed, grown right here on Long Island, is positively the best in America. There are less leaves and more head. Ask any Agricultural Dept.

New Golden Acre

Latest introduction from Denmark. A Big Money Maker for Gardeners and Home Planters.

(See illustration.) Five days ahead of Jersey Wakefield with the added advantage of being a larger yielder, a round head, field with the added advantage of being a larger yielder, a round head, much sweeter, better flavor, more crisp, equally as tender, and by far the most solid in head of any cabbage. It matures in about 70 days. It's the earliest cabbage grown. The head is a trifle smaller than Copenhagen. Heads are as solid as lead and will not burst. The texture is exceptionally fine. The quality superb. Leaves are light in color, tightly folded. Stem short, Ripens more uniformly than any cabbage. No. 4080. Pkt. 10c; 3 Pkts. 25c; 7 Pkts. 50c; ½ lb. \$1.10.

NEW GOLDEN ACRE

Copenhagen Market

A splendid early round headed Cabbage from Denmark, averaging about 8 pounds in weight, but many weighing 10 pounds, a remarkable size for so early a Cabbage and with few outer leaves, heads very solid and compact, fine grained and tender with hearts pure white. A vigorous grower and good keeper, and is a very profitable early market sort, especially well thought of among the southern growers.

No. 4082. Pkt. 10c; 2 Pkts. 25c; 1/4 lb. 90c; 1 lb. \$2.70

Extra Early Jersey Wakefield

We have bred it for years and feel safe in saying our strain today is vastly superior to the old parent stock. The heads are uniformly hard and solid. They are pyramidal in form, generally pointed at the end, with but few outside leaves. The outer leaves are usually thick and heavy, and it is thereby enabled to stand more cold weather than any other sort without injury when carried through the winter, either in the open ground in the South or in cold frames in the North.

No. 4086. Pkt. 10c; 3 Pkts. 25c; 1/4 lb, 60c; 1 lb, \$2.00.

Surehead

SUREHEAD One of the best late cabbages, of the Flat Dutch type, weighing ordinarily from 10 to 15 lbs. each. Of very fine quality, solid, and of fine texture. Drought resisting, about 10 days earlier than Danish Ballhead and certain to head. Grown extensively for winter use and one of the best keepers. We recommend Surehead for the home garden. No. 4083. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 60c; 1 lb. \$2.00.

Danish Ball Head

The Most Popular of All Hard Headed Winter Cabbage
The grand Cabbage on account of its hard heading, long keeping
quality and great solidity has become the most popular winter sort.
Heads almost round, fine grained, excellent flavor, good size and so
heavy that they outweigh any other. Very reliable, sure header and
will keep longer or ship farther than any other.

This variety is now grown more than all others combined for shipping. Large growers can depend on our stock being the very best the world produces. Medium Stem. No. 4084 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 75c; 1 lb. \$2.50.

MURVON'S DRUMHEAD SAVOY

Murvon's Drumhead Savov

The best of its class and is as palatable as a Cauliflower. One of the best Cabbages one can grow. Large size flat heads, curly or crinkled leaves. Stalk short, habit compact. We believe that no strain of Savoy Cabbage equals the one we are offering.

No. 4085 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 75c.

(Pei-Tsai)

The Chinese Cabbage is being generally accepted as a staple vegetable.

Resembles celery, yet is something like Cos Lettuce. Firm, crisp, easily blanched, excellent as greens or salad. It is a delicious new vegetable, healthy and tasty either raw or cooked.

In the west it is served as common as lettuce. Of great size but tender as lettuce and with a flavor of Colors.

tender as lettuce and with a flavor of Celery.

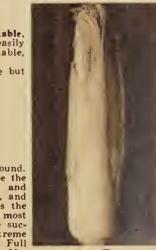

Use in Salad and treat your friends to a rare delicacy.

Will grow in any climate.

No. 5000 Pkt. 10c; 3 Pkts. 25c; 7 Pkts. 50c; 1/4 lb. \$1.00.

COFFEE One Cent Per lb.

Grow your own coffee at an expense of less than one cent per pound. The Domestic Coffee Berry makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and strength to young and old. The best coffee substitute ever discovered, and strength to young and old. The best coffee substitute ever discovered, and thousands pronounce it as good or better than the best coffee. It has the rich, deep brown color of old Java. One of the easiest grown and most productive of all plants. It is an early variety of soy beans, can be successfully grown in any climate, and is sure to ripen even in the extreme North. As easily grown as corn or beans, and does well on all soils. Full directions with every packet. No. 6005 Pkt. 10c; 3 Pkts. 25c; 7 Pkts. 50c.

PFI-TSAI

Murvon's Earlibest

Murvon's Earlibest

The Earliest of All Slicing Cucumbers and Holds Its Deep Color Better Than Any Other Sort.

Earlibest is not only the first slicer ready for the market, but the quality is equal or better than that of most of the later sorts and it is a great yielder. It is the most profitable Cucumber for the early market. It is an extra early White Spine, handsome in shape and color, and holds its deep green color better than any other sort. Fruits grow very even in size, usually about seven inches in length, and regular in form. Color dark olive green from stem to blossom end; smooth, tender and crisp. It is very hardy, robust and free from disease. Ready for market in 55 to 58 days.

No. 4055. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 75c. 1 lb. \$2.50;

Davis Perfect

White Wonder

Color of White Wonder is beautiful pure white. Remarkably uniform in shape and size, averaging 8 inches long by 21/2 inches thick. Begins to bear early in the season and continues until fall. Flavor is pleasing and flesh firm and crisp. Fine sliced or in salads. Its smooth, clear surface makes the White Wonder an ideal pickle. Aside from the excellent quality of the fruits, White Wonder bears a great quantity of them. A packet of seed will furnish you cucumbers in abundance. No. 4053. Pkt. 10c: 3 Pkts. 25c; ¼ lb., 70c, lb. \$2.75, postpaid.

CUCUMBER

One ounce of seed for 60 hills; 3 lbs. to the acre.

We take pride in our superior stock of Pedigreed Cucumbers. Better seed cannot be produced anywhere. Market growers and private gardeners will make no mistake by planting our pedigreed seed. Bred for quality, earliness, hardiness, trueness to type and for increase in production. More than that, our seed will cost you no more than just ordinary Cucumber seed.

English Hybrid White Spine Cucumber

The Aristocrat of the Cucumber Family

ENGLISH HYBRID WHITE SPINE is the result of a cross between English Telegraph and Evergreen White Spine, and combines the valuable characteristics of both. It inherits the fine appearance and shape of the English sort and the hardiness and yielding qualities of the White Spine. Besides it is much darker in color. The seed cavity is very small, a factor distinctly in its favor as a slicing variety; finest quality, firm and crisp. English Hybrid White Spine is, the ideal variety to plant for general crop and will prove to be a real money maker.

No. 4054. Pkt. 10c; 3 Pkts. 25c; ½ lb. 75c.

1 lb. \$2.50, Postpaid.

Davis' Perfect (Perfected Strain)

By using our Perfected Strain a crop can be produced outdoors which cannot be distinguished from greenhouse stock. Fruits 8 to 10 inches long; rich, dark green. It has very few seeds, and the few that are in it when in slicing condition are so very small and tender they are unnoticeable. It loads it vines so heavily that it seems impossible for them to mature the fruit. Under glass it is the most productive variety, and for outdoor growing they yield even better than in the greenhouse. For quality it is unsurpassed. Ready for the market in 60 to 65 days. No. 4056. Pkt. 10c; 3 Pkts., 25c; ½ lb. 75c 1 lh. \$2.50.

White Wonder

Save Garden Space Grow Climbing Cucumbers

This Cucumber is such a strong and vigorous grower that the vines attain twice the length of ordinary varieties. Vine climbs readily and may be grown on fences, poles, etc., thus saving much valuable space in small gardens. One hill will keep a good sized family supplied all summer.

The vines are of healthy, vigorous growth, and cling so tightly that they are not prostrated by heavy storms of wind or rain. They begin to bear early and continue to produce fruit throughout the season.

We were one of the first Seed Houses to list this seed, and have sold many thousands of packages to our customers' complete satisfaction. This is just the cucumber for the home garden, where it can be trellised when space is limited.

A light, warm soil is preferable, but they will succeed in almost any garden soil with good drainage. Full cultural directions come with each package of climbing cucumber.

No. 4100—Climbing Cucumber. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 75c 1 lb. \$ 2 50c;

Postpaid.

China Long

This is a remarkable new long green cucumber from China with fruits from 20 inches to 2 feet in This is a remarkable new long green cucumber from China with fruits from 20 inches to 2 feet in length, and only 2 to 3 inches in diameter. The skin is deep green and nearly smooth, the spines being few and small. There is nothing equal to China Long for crispness except possibly some of the hothouse varieties; flesh solid and of the very best quality for slicing. The nearest seedless of any variety we have ever tried. Nearly as early as the shorter varieties; vines strong, vigorous, healthy and productive. A most desirable variety for the home garden, and is sure to be a popular market sort as soon as it becomes better known. No. 4027 Pkt. 16c; 3 Pkts., 25c; ez. 50c.

Murvon's Fancy Pickles

General favorite everywhere and is used almost exclusively by pickle factories throughout the country. The fruit is of medium size, wonderfully even in growth, slightly pointed at both ends. Extra early and the whole crop can be depended upon to make fine shaped pickles. Color deep green, begins to set its fruit when quite young. You will find this variety valuable for slicing also, being of fine flavor, crisp and delicious. No. 4028. Pkt. 10c; 3 Pkts. 25c; ¼ lb. 75c 1 lb. \$2.50c;

For an attractive pickling cucumber of small size there is nothing to compare with Murvon's "Fancy Pickles" a specialty we have supplied for some years past.

Murvon's Earlibest **Everbearing Cucumber**

A most reliable everbearing variety producing its first fruits very early and continuously over a long period—the first to come and the last to go. The smooth fruits, a dark, rich green in color and medium in size, are produced in abundance closely set on strong vines that remain in good growing condition longer than most other varieties. It retains its rich dark green color for a long time after picking and the flesh is pure white at all stages of growth. No..4031 Pkt. 10e; 3 Pkts, 25e; 14 lb. 75c 1/2 lb. \$1.42. 1 lb. \$2, 50c:

Murvon's Earlibest

Lemon Cucumber

LEMON. A real Cucumber, similar in size, shape and color to a lemon. It has a flavor that is sweeter and somewhat different than other Cucumbers. They are highly esteemed for pickling, either green or ripe, and for slicing just as the fruits are turning yellow. It is rust and drought resistant, and will produce a big crop of fruits almost regardless of weather and soil conditions.

No. 4029 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 65c. Postpaid.

Early Fortune

Early Fortune

EARLY FORTUNE. One of the finest types of White Spine yet produced. Early, very productive and disease resistant; fruits 9 inches long, slightly tapering; flesh white, very firm and crisp, with few seeds. The color is a rich, dark green, which does not fade when shipped a long distance. On account of its earliness, handsome shape, medium size, dark glossy green color and prolificness, it has become one of the most popular varieties with commercial truckers who plant acres for shipment to Northern markets. Matures in about 50 days. It is one of the earliest and finest dark black, green-white spine cucumbers. Our seed is of originators "True Stock". Extra Selected Annually—None better. seed is of originators Annually—None better.

No. 4030. Pkt. 10c; 3 Pkts, 25c; 3/4 lb. 75c;

ENDIVE The Great Salad Plant for Fall and Winter Use. Also Known as Winter Lettuce.

Almost everyone loves lettuce; in our opinion Endive has all the good points of lettuce, yet is much more attractive and certainly more highly flavored.

Fine Green Curled

FINE GREEN CURLED or Giant Fringed Oyster A hardy vigorous growing endive with bright deep green leaves. The midribs of the outer leaves are usually tinged with rose. The dense mass of deeply divided leaves formed in the center blanches very readily to a rich cream color. This sort is highly esteemed for the market and home garden, and is much used for salads.

No. 4032. Pkt. 10e; 3 Pkts. 25e; 1/4 lb. 40e;

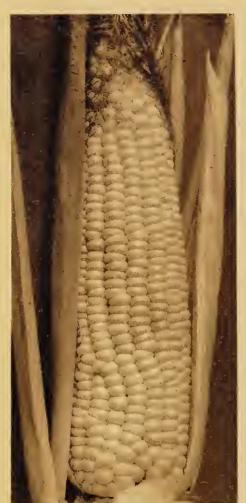

Broad Leaved Batavian

(Escarelle) A variety having broad, more or less twisted and waved hright deep green leaves with thick, nearly white midribs. The inner leaves form a fairly solid, clustering head which blanches to a beautiful deep creamy white and is crisp and tender. This sort is unsurpassed for salads and is much used for the home garden and market.

No. 4033 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 40c;

MURVON'S CONNECTICUT GROWN SWEET CORN

New Golden Sunshine

Country Gentleman

Corn

There is nothing in the vegetable kingdom hailed with as much delight, looked forward to with as much anticipation, as juicy sweet corn.

New Golden Sunshine, Golden Bantam, Country Gentleman and Stowell's Evergreen planted at the same time will give you sweet corn all summer. Plant large areas in hills 3 feet apart each way. Small plots one foot apart in 30 or 36-inch rows. Sow six kernels to the hill and thin out to three plants.

The Sweetest Sweet Corn comes from your own garden, as no vegetable taken from the garden loses its sweetness of flavor as fast as Sweet Corn.

OUR SWEET CORN is hardier than Sweet Corn grown farther south or west, consequently is 5 to 10 days earlier than the same variety produced in many other sections. It is not grown in a field corn growing section, therefore, its purity and sweetness is retained.

New Golden Sunshine Corn The Earliest Yellow Corn Known

For two years we have been promoting and advertising extensively Murvon's Early Sweet Corn. As Murvon's Early is entirely a WHITE CORN we have been besieged with applicants for a YELLOW Sweet Corn which was as early as Murvon's and as sweet. Dr. Yeager of the North Dakota Experimental Station has solved the problem for us by introducing the GOLDEN SUNSHINE Sweet Corn. This is a truly wonderful variety of Sweet Corn, being 13 days EARLIER than Golden Bantam. In fact this variety will be off the market before the Golden Bantam is ready. GOLDEN SUNSHINE from a gardener's standpoint, is the most valuable introduction in recent years. The EARS are LARGER in size than the Bantam, 12 rowed instead of 8, and of equally good color.

Its EARS ARE FULLY 6½ INCHES LONG, We firmly believe that GOLDEN SUNSHINE will eventually displace Golden Bantam. No. 6009—Pkt. 10c.

½ 1b., 40c; 1 lb., 65c; Postpald.

Murvon's Extra Early The Earliest of all White Corn

This great improvement in Sweet Corn is now generally accepted as the earliest Sweet Corn known It is two weeks earlier than Golden Bantam, May-flower, Early Crosby or any of the early varieties.

flower, Early Crosby or any of the early varieties.

This new variety of extra early white Sweet Corn we sold for the first time to Market Gardeners in 1927. Those who tried it brought in splendid large roasting ears ready for the market six to eight days ahead of Early Mayflower.

The Stalks are short and stocky. usually producing TWO LARGE HAND-SOME Ears on each stalk. The Corn is a beautiful WAXY WHITE, of a wonderful sweet FLAVOR and is READY FOR MARKET so much AHEAD of other early varieties that it brings a HIGH PRICE on the market. We strongly recommend this new variety, MURVON'S EARLY, and feel confident that every garden er will want to plant some of it this year.

No. 5006. Pkt. 10c; 1/2 lb. 35c; 1 lb. 65c; Postpald

Golden Bantam Extra Selected Seed

The World's favorite for 20 years, and better to-day than ever: BIG MONEY MAKER for gardeners and excellent for home planting.

This is an early sweet corn with golden yellow grain, very tender and of excellent quality. The ears are eight rowed, six to seven inches long and of the medium size found most suitable for the table. The flavor is exceptionally rich and delicious. The stalks are four to five feet high. Our stock of this splendid home garden and market variety has been very carefully selected and is decidedly superior to much that is offered.

Golden Bantam is consisted ings up to July 15th.

No. 4062. Pkt. 10c; ½ lb. 38c: 1 lb. 65c

Pospaid. Golden Bantam is suited for extra early and later plant-

Stowell's Evergreen The Standard Main Crop Variety

Late maturing sort, producing strong and vigorous stalks, 7 to 8 feet high; produces ears 8 inches long with 16 or more rows of the finest sugary grains. This variety has gained and maintained a reputation for productiveness, fine rich flavor, sweetness and deep set tender white grains.
No. 4064. Pkt. 10c: ½ 1b. 38cl 1 lb., 65c

Country Gentleman Sweetest of all White Corn

Medium sized ear, with small cob, giving great depths to the kernels. The quality of this variety is fine and is pre-

the kernels. The quality of this variety is the and is preferred by some to all others.

Unquestionably the sweetest and juiciest of the late varieties. Matures in about 100 days. Color white. Kernels long and slim. No. 4063 Pkt. 10c; ½ lb. 40c; 1 lb. 65c; 3 lbs. \$1.75. Postpaid.

Murvon's Extra Early

Yard Long Bean

Garden Cherry

Yard Long Bean. This is an excellent variety, as well as an interesting curiosity. The vines are rampant growers and produce an enormous crop of long, slender, round pods which are of excellent quality for snap beans. The round pods are from 2 to 4 feet in length, having the thickness of a lead pencil. Produce late in the summer, very productive, tender and of fine flavor,

If you want a novelty for your garden, something you want to call in your friends to see, by all means include this in your order. No. 6007—Pkt, 10c. 3 Pkts. 25c. 6 Pkts. 40c Postpaid.

Bears Fruit the First Year Bears fruit the first year from seed planted in the open ground. The fruit is a little larger than a cherry, but without any stone. It is really a type of very small sweet tomato.

Excellent eating and of fine flavor. This wonderful novelty if once planted we are sure will always be in your garden. No. 5003. Pkt. 10c; 3 Pkts. 25c; 6 Pkts. 40c.

Black Beauty Egg Plant

BLACK BEAUTY. The earliest of all large fruited Egg Plants. The fruits grow to an enormous size and are ready to use 10 days to 2 weeks ahead of other varieties. The plants grow into a compact and robust bush, and are laden with the mammoth fruits. Under favorable conditions they bear continuously until frost. The fruits are of most attractive form; the skin is a rich, lustrous, purplish black. Very productive; entirely free from spines or thorns. No. 4120. Pkt. 10c;

3 Pkts. 25c; oz. 50c.

NEW YORK PURPLE (SPINELESS). An entirely spineless strain of the large fruited type. Exceptionally productive, each plant bearing from 4 to 6 large oblong fruits. The fruits are of deep purple color, quite smooth, and of the finest quality.

No. 4106 Pkt., 10c; 3 pkts., 25c; oz., 50c, Postpaid.

A delicious vegetable which should be more largely grown, It is extensively used as a salad in some parts of Europe, and is particularly palatable when served boiled, with a cream dressing.

dressing.
Very distinct from Sweet Fennel, easily cultivated and matures quickly from seed sown in early summer. The thickened bases of the leaf-stalks form a bulb-like growth, which is blanched by earthing up like celery. Requires less blanching than celery. The flavor is somewhat like celery, but sweeter. No. 4107. Pkt. 10c; oz. 25c; ½ lb. 75, postpaid

Finocchie

Garden Huckleberry

Grows from seed the first year A new fruit that cannot be excelled for Pies and Preserves. It is very prolific, yielding an immense crop of fruit. It is an annual and must be planted each year from seed. Grows and thrives in all climates and on all kinds of soil. The fruits grow larger than the common Huckleberry or Blueberry and will remain on the plant two months after they are ripe. If cooked with apples, lemons or anything sour, they make the very finest jelly. You will be delighted and astonished with this easily grown and wonderful novelty. No. 5002. Pkt. 10c; 3 pkts. 50c; oz. \$1.00, postpaid.

Leek One Ounce of Seed to 100 Feet of Row

GIANT FLAG. Highly esteemed as a fall and winter substitute for green onions, Excellent for stews, soups or creamed. Belongs to the Onion family but is considered of finer flavor. Mild and sweet; very hardy and easily cultivated in the home garden. The edible stems are 6 to 8 inches in length and about 3 inches in diameter, No. 4108, Pkt. 10c:

1/4 lb., 45c; lb., \$1.50, postpaid.

The Ground Almond has a fine flavor, meat is snow-white and covered with thin shell. Grows close to the surface. Very prolific, a single nut yielding from 200 to 300 nuts in a hill. Will do well in any soil. Planted like potatoes and harvested in same time. Grows rapidly and produces immense crops. Try some this year. No. 6002, Pkg. 10c; 3 Pkgs. 25c; 6 Pkgs. 40c. Postpaid.

Leeks

Big Boston Lettuce

LETTUCE Big Boston Extra Select

One of the Best Shipping Varieties

One of the Best Shipping Varieties

This market variety is very popular for outdoor culture and is also in demand as a compact, large heading, forcing sort for cold
frames The plants are large, very hardy and
vigorous. The leaves are broad, comparatively
smooth but wavy at the edge, thin, very hard
and crisp. In color they are bright light reen,
the head slightly tinged with reddish brown.
The inner leaves blanch to an attractive greenish white, tinged with light yellow. It heads
up under cold weather conditions better than
most other varieties and is grown very extensively in the south for shipment north in the
winter.

No. 4000 Pkt, 10c; 3 Pkts. 25c; 4 ozs. 45c; 1 lb. \$1.50.

MURVON'S WAYAHEAD

Wayahead in Earliness and Wayahead in Quality

It will thrive and produce excellent results under a great diversity of conditions. Wayahead cannot be too highly recommended as a spring and fall Lettuce for planting in frames or in the open. Wayahead is vigorous and healthy, producing medium sized plants with medium dark green foliage. The buttery heads are compact, with few outer leaves. The hearts of this quality variety blanch to a creamy white and they are of a deliciously tender, tasty, and sweet flavor.

No. 4001 Pkt. 10c; 3 Pkts. 25c; 4 ozs. 50c; 1 lb. \$1.50

New York or Wonder

New York or Wonder Lettuce

An Excellent Stock of the Iceberg Type

More N.Y. Lettuce is grown in the U.S. than all other varieties combined. Its first success was made in the Imperial Valley of California, and since that time it has spread over the entire country. Over 20,000 carloads are shipped from the Western States yearly. It is now being grown in most of the market gardens of the East.

OUR NEW STRAIN is an improvement on the regular N. Y. Lettuce. It is fully ONE FOURTH again as BIG as New York and has been selected to a point where practically every plant develops into a hard compact head.

This strain insures the Eastern Gardeners a type of lettuce to compete with the California and Western Iceberg in any market. It is highly resistant to warm weather. 4045. Pkg. 10c; 3 Pkgs. 25c

1/4 lb., 70c: 1 lb. \$2.00.

California Cream Butter

A first quality variety for the home garden and for market, Adapted for early summer plantings. It is planted extensively in the South for shipping to the northern markets during winter. The heads are of large size and very solid. The large, thick outer leaves are dark, glossy green, lightly tinged with brown. The heart is blanched to a beautiful golden yellow. Of excellent flavor

No. 4002 Pkt, 10c; 3 Pkts. 25c; 1/4 lb. 50c; 1 lb. \$1.50.

ICEBERG

Curled, crisp plants of medium size, producing medium green, wavy, fringed leaves, having the edges tinged with brown The heads are compact, medium large, with few green outer leaves. The most delicious, crisp, tender hearts blanch almost white even under average garden conditions. Iceberg is an exceedingly vigorous, hardy variety so that it will withstand quite hot weather.

No. 4004 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 60c; 1 lb. \$2.00

MUSK MELON

GOLDEN HEARTS OR HEARTS OF GOLD

Golden Hearts is a medium early Melon, and ripens 6 to 8 days ahead of our Sugar Rock. The flesh is thick, very tender and of a beautiful golden salmon color. It is of excellent flavor, being very sweet and delicious. It ripens clear to the skin. The Melons are well ribbed, and are covered with a dense netting of grayish color. The thin rind is a rich, dark green color. They are nearly round, and average a little more than 5 inches in diameter and weigh about 134 pounds apiece. The Melons grow very uniform in size, the vines very productive. The fruits set early and cluster about the hill, as many as twelve fruits rave been found to the vine. Golden Hearts is an excellent shipper, and is so good that the hotel trade inquires for them, taking all they can get. Ripe fruits in 70 days. Similar to Hoodoo. No. 4003 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 50c; 1 lb \$1.60

The ideal melon to cut in halves and serve alone or with ice cream.

Gardening for Pleasure or Profit

A useful Book for all Lovers of the Garden

A helpful and practical guide to the propogation and cultivation of flowers; vegetables, bulbs and fruits.

Full description of this book on page 64.

Hearts of Gold

MUSK MELON

Any person can raise melons and they will grow almost anywhere. Even if only a small spot is available a few hills should be planted, especially Murvon's Paradise.

Plant ten seeds in each hill, covering half inch. Hills 4 to 6 feet for Muskmelons and 8 to 10 feet apart for Watermelons. Thin out to four or five plants later. Work fertilizer and sand into each hill. When plants appear, sprinkle with soot or bug death. One ounce will sow about 50 hills.

BENDER'S SURPRISE

Exquisitely fine flavor, large size and medium earliness combine to make this new melon a great favorite. combine to make this new melon a great favorite. Melons average quite large, many weighing 10 pounds or more; oval in shape; light green with coarse netting, and turn a golden tint as they mature. Flesh deep orange, very thick and deliciously sweet. Will keep in good condition a week after picking, and actually improve in flavor during that time. The flesh is so firm and thick that the melons remain in good condition much longer than any other large melon of this class. For market and shipping this is an important consideration. We know of no other large Muskmelon that will equal the Bender for either the market or the home garden.

No. 6001 Pkt, 10c; 3 for 25c; 1 lb. \$1.50 Postpaid.

Honey Dew Melon

Bender's Surprisc

"Honey Dew," the Famous Melon

This is a cross between the Rocky Ford Cantaloupe and a South Sea Island Casaba. It has retained all the best qualities of both and is better than either. The melon is nearly white, turning to lemonyellow when ripening, and the average size is a little larger than that of a coconut. The flesh is light green, the juiciest and sweetest Muskmelon and luscious in flavor. The rind is hard. It is good as soon as picked off the vine and will keep good for months if kept in a cool, dry place. It is therefore a good shipper and a most splendid fruit to grow for the market. In the city markets the Honey Dew sells at higher prices than any other melon. As a local melon, it advertises itself. The first one eaten creates a desire for more. Plant it in your home garden. It will afford you more pleasure than any other vegetable you have. Ripe fruits in 90 to 120 days, depending upon the season. Full grown fruits that do not ripen in storage.

No. 4021. Pkt. 10c; 3 for 25c; 1/4 lb. 60c; 1 lb. \$1.60 Postpaid.

SUGAR ROCK

THE MILLION DOLLAR MELON

A new type of melon which has created a sensation wherever it has been introduced. Leading melon growers report it to be the most profitabe variety, owing to its superior quality, immense flavor, striking appearance, productiveness, and rind so tough and flesh so firm that it can be allowed to ripen on the vine and then shipped long distances and arrive in perfect condition.

No. 4022 Pkt, 10c; 3 for 25c; 1/4 lb. 50c; 1 lb. \$1.60 Postpaid

WATERMELON SUGAR BOY

Sugar Boy Watermelon is the sweetest, most delicious and most prolific Watermelon on earth. There is no Melon that can begin to equal it in quality, richness of flavor, lusciounes, deep, juicy, rich core, fine outward appearance, large giant size and extreme earliness. We say there is no Melon on earth that can approach it in the quality that goes to make a superb Melon. Sugar Boy Melon will grow to weigh from 20 to 60 pounds, and every one of them, large or small, is sweet, tender, juicy, brittle, stringles and melting on the tongue. This Melon—teing a cross of the Halbert's Honey. Monte Crisco and Kleckley Sweet—resembles very much the Kleckley in outward appearance. It retains all the good qualities of Kleckley Sweets, has a harder rind, making it a better shipper, grows larger and more uniform and has no hard white centers. Try this Melon. You will like it.

No. 4024 Pkt. 10c; 3 for 25c; 1/4 lb. 50c; 1 lb. \$1.25 Postpaid. Sugar Boy Watermelon is the sweetest, most delicious

Sugar Boy Watermelon

WONDERMELON WATERMELON

"Wondermelon" is one of the favorites. It is one of the finest flavored Melons raised. It is also very productive, grows great quantities of big, fine, dark, glossy green Melons, that resemble the Keckley Sweet but grows much larger and fully as good eating quality. The rind is rather thin but reasonably tough to insure good carry for short hauls, and any market that receives this melon will sell to good advantage. Grows long and thick, flesh deep red and juicy sweet.

No. 4023. Pkt. 10c; 3 for 25c; 4 lb. 50c; 1 lb. \$1.25 Postpaid.

Mustard Spinach

One ounce of seed to 75 feet of row.

Mustard Spinach, or Tendergreen is a new vegetable of great merit, which is ready for the table in 3 to 4 weeks after seed is planted. It is a very mild Mustard with a distinct Spinach flavor. It is rapidly taking the place of Spinach, as it remains tender even in dry, hot weather. It is a wonderful producer and is becoming very popular with market growers and home gardeners. It is an all season plant, resistant to insects and blight. The leaves which are twice the size of Swiss Chard, are mostly used when young. It is not a "cut and come again" crop, but by repeated plantings every two weeks an abundant supply of delicious greens is available throughout the entire summer, as well as spring and fall. It is extremely resistant to cold weather so early and late plantings are possible. The leaves are cooked and prepared for the table the same as Spinach. Don't fail to give Mustard Spinach a trial this season. You will be pleased with it. No. 4109 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 35c; 1 lb. 90c.,

Postpaid.

Mustard Spinach or Tendergreen

CHOICE ONION SEED

Onions usually net the grower more money per acre than any other vegetable crop. The difference in price, if any, between a good strain of carefully grown seed and a poor strain, carelessly grown, is so small that you can only afford to plant the very best. There are many inferior strains of Onion seed being offered to the public at low prices which will produce Onions of all sorts and sizes instead of the uniform, marketable crop obtained by planting a carefully selected strain of seed. Each year a large and stead(ly increasing number of market gardeners buy our Onion seed because they realize that none is superior.

Prizetaker Onion

Prizetaker Onion

Among large Onions this one is exceptional for size and beauty; It is of the same type as the large Spanish onions, imported and sold for high prices. American grown seed has become thoroughly acclimated through many years of very careful, painstaking culture. Prizetaker is a yellow globe that matures to great size under right conditions; it requires a long season and should be started early in hotbed. When properly ripened it is a good keeper. No. 4110. Pkt. 19c;

3 Pkts. 23c; 1/4 lb. \$1.00; Pestpaid.

Mammoth Silver King

A mammoth white variety, one of the largest grown. The large bulbs are very attractive, slightly flattened but quite thick and under good cultivation average 5 to 7 inches in diameter. The skin is a very beautiful silvery white with flesh snow white, very tender, mild and sweet. Mammoth bulbs can be grown from Spring-sown seed, maturing in the company of the 100 days. ing in from 90 to 100 days.

No. 4111 Pkt. 10c; 3 pkts. 25c; 6 pkts. 40e; 1/4 lb. \$1.10.

Japanese or Ebenezer

There has been a tremendous demand for this flat yellow skinned Onion the past few years, especialy for the growing of Onion Sets. Japanese Onion Sets produce a much large tonnage of marketable Onions than does the old Strassburg or Danvers, which it resembles very much. Moreover, a smaller per cent of the sets run to seed with consequent damage to the large Onions produced. As a large Onion Ebenezer is a fine keeper, mild and well flavored.

No. 4112 Pkt, 16c; 3 Pkts. 25c; ½ lb,75c Pestpaid.

Earliest White

This is the earliest Onion in cultivation, growing with a rapidity of a summer tadish Nine weeks from sowing to maturity. The bulbs are pearly white, waxy, translucent, and are generally very small, averaging only 1½ inches in diameter, and are uniform in size and shape. So mild and sweet that it can be eaten raw with almost the freedom of an apple. Chiefly grown for pickling and bunching; the best of all for small pickles. No. 4113 Pkt. 10c; 3 Pkts. 25c;

Yellow Globe Danvers

One of the most extensively used main crop onions for the home garden and market The bulbs are of medium to large size, uniformly globe shaped, with small neck, and ripens very evenly. The skin is rich yellow. The flesh is creamy white, crisp and of mild. excellent flavor. The variety keeps well. No. 4114 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. \$1.10. Postpaid.

Large Red Wethersfield

For a red onion none is so largely grown or so popular the country over as this. It grows quickly, attaining full size from seeds sown early in the spring. It is a sure cropper, always doing well where any onion will, and sells well in market. Fairly strong flavor and keeps. Bulbs slightly flattened, and of rich red color. No. 4115. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. \$1.10c;

Red Wethersfield

PEAS

Culture—Start sowing in March. Sow in single or double rows 24 to 26 inches apart, covering seeds about 2 inches deep. All varieties do better with some sort of support. By selecting varieties maturing in succession a constant supply of delicious peas may be had from early in June until middle of August.

The American Wonder Pea

The remarkable increase in POPULARITY of the American Wonder Pea would be more surprising, only for the WONDERFUL VALUE it represents. BIGGER CROPS with LESS LABOR. Needs NO BUSHING at all. Its strong stem holds it upright being only 10-12 inches high. It is an EXTRA EARLY Dwarf Wrinkled Pea of sterling quality. Pods are FIRM and well filled with SPLENDID peas. Length of pods are two and a quarter inches. For your MAIN CROP you cannot beat the AMERICAN WONDER PEA.

Very prolific with pods well filled with good sized peace. Seed vicated in

Very prolific with peds well filled with good sized peas. Seed planted in May will mature in 35 to 40 days, and the short, robust vines require no support, Fine for the home garden.

No. 4097 Pkt. 10c; 3 Pkts. 25c; ½ lb., 25c; 1 lb., 42c, Postpaid. No. 4097

Alaska Earliest of All 55 Days

We still believe that for a main crop for early planting, Alaska still holds the lead. Either the market gardener or the home gardener can make no mistake in planting Alaska. It is tried and true and has never been found wanting. A green seeded extra early vine 30 to 36 inches tall. Distinct light green folinge, pods 2 to 2¾ inches long, containing 5 to 6 blue-green, small, slightly pitted to smooth seeds. One of the best extra-early Peas in the market, and a great favorite with canners and market gardeners, because a good stock of this variety matures all its pods at once.

No. 4101 Pkt. 10c; 3 Pkts. 20c; 1 lb. 40c, POSTPAID.

Murvon's Gradus or Prosperity 62 Days

An extra early large podded, wrinkled variety, pods as large as Telephone. Very showy, same shape as Telephone. Vines much stronger than Alaskas, delicious flavor. Height about 3 to 3 1/3 feet. Vine similar in appearance to Telephone, but more yellowish, pods very large, about 4½ inches long, pointed. Peas very large, of splendid quality, green color, No. 4103 Pkt. 10c; 3 Pkts. 20c; ½ lb. 25c; 1 lb. 45c, Postpaid

American Wonder Red

Gradus or Prosperity

FRESH PEAS FROM YOUR OWN GARDEN ARE FAR BETTER THAN ANY SOLD IN CANS. PLANT 2 OR 3 ROWS OF OUR NORTHERN GROWN PEAS THIS SPRING AND ENJOY THEM ALL SUMMER LONG.

Mammoth Melting Sugar

MAMMOTH MELTING SUGAR. (Edible Pods).. The pods of this variety are cooked with the Peas, as they have a very high sugar content, are very tender and free from stringless, making a delicious dish and a good change in the menu. Pods are 4 inches long and as broad as a large Lima bean pod, brittle, very juicy and sweet, while the large, tender peas have a delicious flavor. If you have not grown this sweet, edible pod Pea, try it this season, as when once tried you will want to grow it every season. Vines grow about 3 feet high, literally loaded with large pods. No. 4098. Pkt. 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb, 25c; lb. 45c; 3 lbs \$1.20

Champion of England Peas

Universally admitted to be one of the best late Peas, highly prized by those who are fond of a large, tender and luscious Pea for late use in the season. It is very hardy and vigorous with pods over 3 inches long, very wide and straight, medium dark green color and of delicious flavor and a very profuse bearer. This valuable variety has been grown for forty years and is still in great demand. The vines grow some over 4 feet high and Peas are ready for us in 75 to 80 days.

No. 4099 Pkt. 10c; 3 pkts. 20c; 6 pkts. 30c; ½ lb. 25c; lb. 40c;

3 lbs., \$1.10, Postpaid.

Sweet Potato Pumpkin

TENNESSEE SWEET POTATO is an excellent sort which, when cooked. resembles a sweet potato in flavor, but is of more delicious taste. It is pear-shaped and slightly ribbed. The color is creamy white, sometimes striped with green. Flesh is fine grained and very dry. Fine when cooked like sweet potatoes and nothing superior for making pies and custards. Matures in 95 days, is hardy and productive, and keeps perfectly sound until late in the spring. No. 4104 Pkt. 10c: 3 Pkts. 25c: 1/4 lb. 45c;

1 lb. \$1.30; 2 lbs., \$2.25; 5 lbs. \$5.50 POSTPAID

King of the Mammoth

This is the very best genuine strain of the true Mammoth Pumpkin. Fruits grow to enormous size, sometimes reaching two feet or more in diameter, and from one hundred to two hundred pounds in weight. Salmonorange skin: very thick, bright yellow flesh, which is fine grained, tender, and of excellent quality for, pies. To raise the largest fruits, vines should be allowed ample space in which to grow; only one plant should be allowed to grow in a hill and only the best fruit left on the vine.

> No. 4105 Pkt. 10c; 1/4 lb. 50c; 1/2 lb. 90c; lb. \$1.75; 2 lbs., \$3.30; 5 lbs., \$8.00, postpaid.

King of the Mammoth Pumpkin

Chinese Giant

MURVON'S PEPPERS

Chinese Giant

This grand pepper is not only the largest, but it is also of the finest quality, being especially desirable for stuffing, green pepper hash, salads, etc. Plants strong, stocky, erect, bushy, growth about 2 feet tall. Fruit of enormous size, almost square and fill plants from the bottom up Flesh thick, mild and of excellent quality. Has no superior.

No. 4011. Pkt. 10c; 3 Pkts. 25c; oz. 50c, Postpaid

Mammoth Ruby King

Ruby King is noted for brilliancy of color, and flavor and is one of the largest grown. Plants loaded with bright ruby red fruits of immense size and mild, delicate flavor. Flesh thick, crisp and tender and for salads, stuffing, etc., has few equals.

No. 4012 Pkt. 10c; 3 Pkts. 25c; oz. 40c Postpaid.

Large Bell or Bull Nose

Sometimes called Sweet Mountain. The plants are vigorous, about two feet high, compact and very productive, ripening their crops uniformly and early. The fruits are large, with thick, mild flesh of excellent quality for use in salads and mangoes or stuffed peppers. The color is deep green when fruit is young, bright crimson when ripe

No. 4014 Pkt. 10c; 3 Pkts. 25c; oz. 35c Postpaid.

Large Early Neapolitan

Unquestionably one of the earliest and most prolific of all Sweet Peppers. The fruits are ready within 120 days after seeds are sown, averaging 4 inches long by 2 inches in diameter and single plants frequently carry from 40 to 50 fruits at one time. Bright red, sweet, fine and tender.

No. 4015 Pkt. 10c; 3 Pkts. 25c; or. 40c Postpaid

SAXA RADISH The Earliest Radish Grown

We have found this new Radish to be earlier than any of the other so called earliest sorts. The best extra early variety for forcing, and for growing in the open ground it has no superior. From the time of seed sowing to the table in 16 to 18 days, and under ideal conditions are fit to pull in 15 days. It is round, bright scarlet in color and has a very small top and taproot. Flesh pure white, crisp, brittle, mild and juicy. The Saxa is one of the slowest to shoot to seed.

No. 4025 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 40c Postpaid

Early Sparkler

Popular for Market and Home Garden

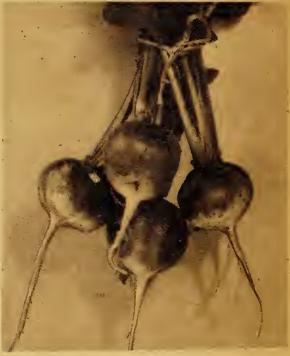

Quite distinct from other white-tipped varieties in that the colors are so much more vivid and attractive. The upper part is a rich carmine-scarlet, with a very large tip of the purest white. The roots, even when fully developed, are solid, crisp and sweet, and remain fit for use as long as the coarser kinds. It is equally well adapted for forcing in frames or growing in the open ground Ready for the table in 20 to 22 days No. 4019 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 40c Postpaid.

Early Scarlet Globe Radish

(Also Known as Vick's Scarlet Globe)

Roots slightly olive shaped and are a rich, bright scarlet in color. The flesh is white and tender The roots are fit to pull early, but are larger when matured. We especially recommend this to gardeners as a first early forcing radish. It is also desirable for first early planting outdoor for the home garden and market.

No. 4017 Pkt 10c; 3 Pkts. 25c; 1/4 lb. 35c Postpaid.

Saxa Radish

Japanese Giant Radish

White Icicle The Best White

The most popular and, we think, the best long white radish in the world. It is as dependable as it is popular. Ready for use in three weeks. Can be used when small. Of crisp, tender, mild flavor. The leaves are short, few in number, and permit of close planting. Roots attain a length of 4 to 6 inches and about % of an inch thick. It retains its fine table condition longer than any other radish, long, short or round. No better variety could be secured for the home garden.

No. 4020 Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 50c Postpaid.

JAPANESE GIANT RADISH

The great Sakurijima Radish from Japan, often attaining the enormous weight of from 15 to 30 pounds. A real "novelty" to Americans.

The flesh is solid, firm and brittle and of excellent flavor. Will grow or thrive in any soil or climate. Can be planted in spring and eaten all summer long and keeps through the winter. Thrives in hot and dry weather. Try this monstrous variety and you will find real value.

No. 6011—Pkt. 10c; 3 for 25c.

SQUASH Improved Blue Hubbard

We are introducing this year, the most wonderful Squash ever grown. Our outside representative drew our attention to this remarkable vegetable in 1930 but we could hardly believe the wonderful tales he told us as to the taste and eating qualities of this Squash.

In the fall of 1931 he left one of the Squashes in the office We divided it into four quarters and gave one quarter each to four of our office force. The enthusiastic reports from those four, made us decide to list this Squash as one of our wonderful discoveries.

You cannot go wrong by planting a large quantity this year.

No. 4018 Pkt. 10c; 3 Pkts, 25c; 1/4 lb. 50c; 1 lb. \$1.50

MURVON'S DELICIOUS

One ounce to 10 hills; 3 to 4 lbs. per acre.

DELICIOUS. Unsurpassed for sweetness, richness of flavor and extraordinary quality. Excellent for fall and winter use; keeps well until late in the spring. Fruits usually weigh 5 to 10 lbs.; rind dark green, mottled in lighter shades; dark orange flesh; very thick and fine grained.
No. 4005. Pkt. 10c; 3 Pkts. 25c; 4 lb.50c; 1 lb. \$1.50.

Improved Blue Hubbard

Golden Summer Crookneck Squash

One of the best of the Summer Squashes It is of dwarf, bushy habit and very productive. The skin is yellow. The shape is shown in the illustration. The flesh has a deep golden yellow color and of most agreeable flavor. This is, in fact, most highly esteemed of all the summer varieties.

No. 4608 Pkt., 10c 3 Pkts. 25c 3/4 lb. 40c 1 lb \$1.25

New Zealand or Everbearing Spinach (Hot Weather Spinach)

A distinct type of Spinach with small green leaves, which make large, bushy plants, often 3 feet in diameter. Only the young leaves and tips of the branches are used, and the more they are picked the faster the plant seems to grow. It will give you fine greens all summer and fall. Especially suited to dry and arid locations where other varieties do not do well, and the only kind that can be successfully grown in extremely hot weather.

No. 4007 Pkt, 10c. 3 Pkt. 25c 1/4 lb 35c 1 lb. \$1.00 Postpaid

Golden Crookneck Squash

NEW TRIUMPH SPINACH

Plants are of very compact but prostrate growth. They are composed of many short stemmed leaves, which are of much thicker and heavier texture than most other Spinach. They are heavily crumpled and blistered, of dark green color, and do not wilt or run to seed as quickly as most other sorts, but will remain in good marketable condition a month. On account of its thick, firm leaves it retains its freshnness during the hot summer months. It is the best variety to be sown in the spring, and also continuously at intervals all summer, so that this delicious, healthful vegetable can be enjoyed, not only during the cool weather, but during the hot months as well. No. 4118 Pkt. 10c; oz. 15c; ½ lb. 30c; lb. 85c

Shogoin Turnin

Bear in mind when you compare prices that we pay all postage and send only the finest seed

Everbearing Spinach

New Japanese Turnip

A Hot Weather Turnip. Edible Tops and Roots

If you like greens and sweet tender turnips you can have both by planting this new Japanese variety Trials have shown it to be superior in many respects to most of the varieties generally cultivated in America. The leaves grow upright, about two feet high when fully developed, but should be cut before they attain full growth.

This is a decided acquisition to both the Turnip and the Greens classes. It produces an abundance of tender delicately flavored leaves, and later a full crop of very tender Turnips, closely resembling Early White Flat

It is a very rapid grower. The leaves as greens being ready fully as early as any of the Turnips for greens. After the leaves are cut the roots form rapidly, reaching maturity fully as early as Flat Dutch and Purple Top Strap Leaf.
No. 4010 Pkt. 10c 3 Pkts. 25c 1/4 lb. 40c lb. \$1.25

New Burbank

New Burbank Tomato

Mr. Burbank's wonderful genius has created a Tomato that from seeds planted in open ground BEARS FRUIT EARLIER THAN PLANTS.

Mr. Burbank himself made the remarkable statement that "a second crop of tomatoes has been grown in one season from the seed of the first crop." A.I. Root, editor of Bee Culture, states that he planted Burbank Tomato Seed when his other tomato plants were budding, yet his first ripe Tomatoes came from the Burbank.

The Burbank is also Blight-proof and a big bearer. Very solid, with few seeds and of fine flavor.

We can offer the Burbank Tomato only in packets of 50 seeds this year. Order NOW as our supply is limited.

No. 4059—Pkt. 10c; 3 Pkts. 25c; 6 Pkts. 40c; 1 oz. 75c; /4 lb. \$2.25.

A CANADIAN TESTIMONIAL

Last year several of the gardeners here sent for your "Burbank" Tomato seed. I received six plants from them. As for a cropper, the like was never seen in these parts before, and one of the gardeners took first prize with them at the gardeners' show.—H. O. H., London, Ontario, Canada.

Giant Climbing or Mammoth Prize Tomato

We have made this mammoth Tomato a specialty for some years. It gives complete satisfaction everywhere, as the massive fruits possess every good quality desired, are almost perfect in form and very solid. The vines, when properly trained, will attain a height of 12 to 15 feet and carry an enormous weight of the immense fruits, often found to weigh one, two and three pounds each. We offer a selected strain that is extremely prolific and bears continuously until frost. It is unsurpassed in fine quality for slicing. Every garden should have a few of these giant Tomato plants.

They begin to ripen in about 110 days and continue until killed by frost..

No. 4092. Pkt. 10c; 3 Pkts., 25c; 6 Pkts, 40c; oz. 75c; 2 ozs, \$1.25

NEW MARGLOBE Pritchard Strain

This Tomato is undoubtedly the best of all recent introductions. It was named and introduced by Dr. Pritchard, of the Bureau of Plant Industry, United States Department of Agriculture, Washington, D. C. It is Globe in shape, deep red all over, very little depression at the stem end, does not crack. No mark at all at the blossom end. It is solid, no green core and most productive. This variety will be more generally cultivated during this summer as it is the most profitable of all sort. We recommend the Marglobe to take the first place with Market Gardeners, Kitchen Gardeners and Canners. We cannot say too much for this strain of Tomato and we hope all our customers will order it.

No. 4093 Pkt. 10c; 3 Pkts. 25c; 1 oz. 40c; ½ lb \$1.20 postpaid.

The New Break O'Day Tomato

We are one of the few seed houses carrying this wonderful new variety. Break O'Day was originated by Dr. Pritchard of the U. S. Dept. of Agriculture by crossing Marvana with the Marglobe resulting in this wonderful new variety which we believe is destined to become the most popular early red and the best early variety for market gardeners or the home gardener anywhere. Vines are very open growing and in appearance somewhat resemble Earlianna altho the leaves are rather short and small for a plant that is so prolific. It is resistant to disease and can stand severe weather conditions. Fruits are of a large size and closely resemble the Marglobe as to shape and color.

No. 4094. Pkt. 10c; 3 Pkts. 25c; 1 oz, 40c; 1/4 lb \$1.10. postpaid.

Murvon's Matchless Tomato

One of the best large fruited Has every good quality desired in a main crop tomato. Vines are very sturdy, vigorous and productive, producing an enormous crop of large handsome fruits of a rich red scarlet color. Never fails to attract attention, being perfectly smooth, free from cracks and other ir-

New Marglobe

from cracks and other irregularities, firm and solid. Market gardeners desiring large quantities of fruit nearest to perfection in uniform color, shape and form, that is of an excellent quality then matchless is our choice. An excellent to-mato for the home garden and ready in about 110 days, No. 4095. Pkt. 10c. 3 Pkts. 25c; 6 Pkts. 40c. 1/4 lb. \$1.10.

Climbing Tomate

Ponderosa or Beetsteak

More generally known as the Beefsteak Tomato. It is a big tomato of unusual and outstanding merit both as to quality and to size. Our improved strain of seed produces immense crops with fruit more uniform in size than the older strain. Very meaty with few seeds. The plants are very blight resistant. A vigorous grower and even in dry seasons will grow tomatics of an unusual size. They have less said then continued to the second continu tomatoes of an unusual size. They have less acid than many varieties. A very fine tomato for either the market or home gardener. No. 4096. Pkt. 10c; 3 Pkts. 25c; 6 Pkts. 40c;

1/4 lb. \$2.00.

Swiss Chard for Greens The Cut and Come Again Spinach Beet

The outside leaves of Swiss Chard are used as "boiling greens" and are excellent for this purpose. They closely resemble spinach in flavor, but are declared by connoisseurs to be even finer. The large white stalks are used like asparagus; they are boiled and served in melted butter or milk dressing and are fully as delicious as asparagus. Swiss Chard grows well even during hot weather when spinach fails.

Lucullus or Silver Ribbed

A strong growing Swiss Chard with extra large leaves which are thick and heavily crumpled. It yields an enormous amount of greens, and has thick white stalks. The most popular variety so we have discontinued growing other varieties. No. 4065 Pkt. 10c; 1/4 lb. 35c; 1 lb. \$1.25. Postpaid

Improved White Queen Parsnips

Parsnips

Sow as early as the ground can be tilled, in 18 inch rows. One ounce sows a 200 foot row. Cover about $\frac{1}{2}$ inch. Parsnips we consider come next to Sweet Potatoes as a real appetizing vegetable. Positively one vegetable that should not be omitted from the garden. It has a flavor and taste entirely different than any other vegetable, a flavor that cannot in any way be excelled.

Murvon's Improved White Queen

(See illustration.) Medium long with broad shoulder. Fine grained, tender and sweet. The roots are about 8 to 10 inches long, with a smooth, white skin. Uniform in shape, very tender and finest flavor.

No. 4066 Pkt. 10c; 1/4 lb. 30c; 1 lb. \$1.00 Postpaid.

Parslev

Parsley is used for garnishing and seasoning soups, stews, meats, etc. Succeeds best in a mellow, light soil. Seeds slow to come up, often takes two or three weeks. Soaking seeds for an hour or two in warm water assists it to germinate quicker,

Moss Curled Parsley

The best and handsomest Parsley for garnishing salads, etc. Color rich, deep green, beautifully curled.
No. 4068. Pkt. 10c; 1/4 lb. 30c; 1 lb. 90c; Postpaid.

Market Favorite Brussels Sprouts

Small Cabbage-like heads are produced at the axils of the leaves which are of extremely fine flavor. The plants are of strong, robust growth. The Sprouts develop for nearly the entire height of the stalk at about the same time, consequently a very large crop can be gathered. Heads solid and improved by light frost.

No. 4069 Pkt. 10e; 1/4 lb. 75e; 1/2 lb. \$1.25 Postpaid.

Mary Washington

Asparagus Mary Washington

By far the best strain and the Most Vigorous of the Famous Washington Asparagus.

Originated by Prof. Norton, of the U.S. Department of Agriculture. The original strain was called Washington, another selection Martha Washington, and another Mary Washington. The Mary is considered the best strain, as the shoots are larger and grow more rapidly than the other kinds. The stalks are very thick and grow unusually tall without branching. The color is deep green with purple tips. This is decidedly the best variety for either the home garden or commercial planting. No. 4070. Pkt. 10c; 3 Pkts. 25c; 1/4 lb. 35c; 1/2 lb.

65c; 1 lb. \$1.25. Pestpaid.

NEW VEGETABLE NOVELTIES FOR YOUR GARDEN

Banana Muskmelon

This melon surpasses all others in its delicious fragrance. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. It grows from 18 to 36 inches in length, and is very prolific. It looks almost like an overgrown banana and smells like one. Has a flavor all its own. Very sweet and delicious. Don't fail to try it. Put in a small patch this year for you own use and any use don't eat you can sell at a big price.

No. 4071. Pkt. 10c; oz. 15c; 1/4 lb., 40c; 1 lb. \$1.20. Postpaid

Gigantic Guinea Bean

Extensively advertised as "bean" but really of the Colocynth family. Grows to enormous size. One often weighing 20 to 25 POUNDS.

Sergeant Howard P. Mc-Abee, West Point, N. Y., writes, "My Beans now measure 34 inches in length, a single bean weighs more than thirty pounds at the present time". It has caused considerable comment in this section and has been viewed by crowds!
Hundreds of testimonials
It may be prepared like
squash, but is delicious eat-

ing when cut in half, the seed extracted, then stuffed with chopped meat and roasted.

No. 5001, Pkt., 10c; 3 Pkts., 25c; 6 Pkts., 40c.

CELERY ASPARAGUS

Celery Asparagus or Ivory White Sea Kale is a delicious perennial vegetable which is cultivated somewhat like Ascultivated somewhat like Asparagus, and is very easily grown. It is ready for use earlier in the spring than Asparagus, and combines the flavor of Asparagus with that of Celery. Its blanched stalks are cooked like Asparagus and the leaves are used as greens. Owing to its extraordinary merit it is worthy of general cultivation.

No. 4658. Pkt. 16c; 3 Pkts. 25c; ez, 50c., Postpaid.

Three Foot Radish

A wonderful Oriental vegetable. Of immense size.

A pure white Radish with the flesh of a Baldwin apple and as fine a grain.

Grow 2 to 3 ft. in length and 5 to 10 lbs. in weight and of a flavor

ahead of the best spring radish that ever passed your lips.

This is another of our fine novel-ty vegetable seeds. The kind that will make your garden different to your next door neighbors. This seed is specially grown for us in Kyoto, Japan, and will grow with perfect success in the United States. Easy to grow and worth while your attention. 6006—Pkt. 10c. 3 for 25c.

The Winter Watermelon A Novelty for Your Garden

A home-grown melon for your Thanksgiving dinner! Genuine mid-season form and luscious flavor carried beyond the melancholy days, when frost has hit the pumpkin and corn is in the shock. This is not a "Citron", nor a freak, but a very prolific long-keeping true water-melon type of medium size, round shape, yellowish rind with flesh bright red, crystalline, sweet as honey.

Fruits taken from the field before killing frost and stored in a cool place will keep long into the late fall and early winter and retain their delicious sweetness and flavor.

No. 4661. Pkt. 18c; 3 Pkts. 25c; 1/4 lb, 40c; 1 lb. \$1.25, postpaid.

Kale

One Ounce of Seed to 300 Feet of Row
This is a species of the cabbage family which is extensively grown for greens. It is hardier than cabbage; plants withstand several degrees of frost. In the Northern states it will provide an abundance of greens throughout the summer and late into fall, and all winter and the following spring in the South.

DWARF SCOTCH. The best variety. Large, finely curled, parsley-like leaves which can be used for garnishing as well as for greens. Tender and of the very finest flavor.

No. 4117. Pkt. 10c; 3 Pkts. 25c 1/4 lb. 40c; 1 lb. \$1.20

Giant Butter Bean A Quick Strong Grower

The Most Wonderful Bean

in the World

A Record breaking FOOD producer. Comes from the ground in a few days, and grows quickly to a height of two feet, on a strong. sturdy stalk.

For Size

Strawberry or Husk Tomato

This DELICIOUS little fruit can be raised very easily from seed planted in open ground as soon as the ground is warm The plants are of DWARF spready growth and very PRODUCTIVE. The fruit is YELLOW and about the size of a STRAWBERRY and is enclosed in a HUSK.

It is of a peculiar FLAVOR
and often used in preserves.

May be eaten like a Tomato
and there is no greater DELICACY.

A great NOVELTY and very pretty when laden down with its miniature fruit. No. 6010. Pkt. 10c:

Chestnut Bean

This wonderful Bean looks like a gigantic Pea. When boiled it has a flavor like boiled chestnuts, and is one of the most delicious beans grown. Grows in the form of a tall bush, and is completely covered with pods. For soup and turkey stuffing it cannot be surpassed. It is a Spanish Bean, and is known as the "Garbanzo" Bean. No. 6008—Pkt. 10c; 3 Pkts. 25c. Postpaid.

Garden Dandelion

The Dandelion cultivated as a SPRING GREEN is fast growing in favor. It is one of the BEST and most HEALTHFUL spring greens.

Do not confuse the CULTIVATED DANDELION with the annoying pest so common in lawns. This is an IMPROVED, THICK, BROAD LEAVED plant that is THREE TIMES the size of the wild dandelion. The FLOWERS may be used for making a most DELICIOUS WINE. Imagine a BED or a dozen rows of this cultivated Dandelion with its GOLDEN BLOSSOMS? With its healthful Greens from its LEAVES and INVIGORATING Wine from its BLOSSOMS, No. 6003 Pkg. 10c; 3 Pkgs. 25c. Do not confuse the CULTIVATED DANDELION with

Grow This Vine Peach

Ripe Fruit in 80 Days After Seed is Planted

This wonderful Vege-table Peach is the most beautiful of all vege-tables. They resemble tables. They resemble oranges in color, shape and size, and grow on vines like melons. They present a beautiful and tempting appearance when canned; make delicious preserves and sweet

cious preserves and sweet pickles; and are fine for pies. There is nothing like them. Extremely early, of the easiest culture and very prelific, covering the ground with golden fruit. They grow from the seed in 80 days. A package of the seed will be sent postpaid for 19c; 3 packages for 25c. No. 5007.

Giant Elephant's Ears

See illustration of a Caladium Esculentum (or Elephant's Ear) raised by one of our They are customers. undoubtedly one of most effective and easily grown foliage plants for the lawn or border. Can be used with good effect as a border for tall-growing Cannas when edged with Coleus or other low-growing foliage plants. thrive in any ordinary garden soil, but to get the best results plant in rich soil and give plenty of water.

No. 3036 - Each 15c: Doz. \$1.50.

This leaf measured 281/2 inches across and 52 inches long and is proof that you have good Bulbs. It was one of the largest I ever saw, writes Harold Haymes, Lancaster, Ohio.

Chinese Sacred Lillies

This built is called by the Chinese, "Jos flower" or "Flower of the Gods", and "Water Fairy Flower". This is a rare plant and a great novelty. Highly prized for the abundance of flowers and its marvelously rapid growth. Flowers are very fragrant and are white with a yellow cup, flowers both single and double. Each bulb produces five to ten flowers. Anybody can grow them even a small child. They are grown in bowls of gravel and water in the house, any ordinary gravel or pebbles will do. It is interesting to watch its rapid growth, which is about twenty inches in 5 or 6 weeks.

Fragrant Tuberoses

One of the best known and most easily grown summer flowering bulbs Easily recognized by its exquisite fragrance and beautiful flower spikes which are borne on long stems, making it an admirable cut-flower for house decoration. If started in pot and then transplanted to open ground can be had much earlier. Handling as we do a million of these each season, mainly for our wholesale and export huyers, enables us to select the choicest bulbs which the market produces for our trade.

Excelsior Dwarf Pcarl-Mammoth. Our Mammoth Excelsior Dwarf Pearl is a special selection made for many years of the most dwarf, double and full flowered spikes and is exceptionally sturdy and dwarf in habit. This "Mammoth strain" is positively the highest type of the tuberose. The kind to grow if you desire "prize" blooms. No. 3035, each, 15c; doz. \$1.20

Gloxinia

This is one of the most interesting as well as the most beautiful flowers in the world, in fact we question if there is another flower with the intensity of color and texture of the bloom. Very easy to grow. Flowers of very large size, many of the petals being beautifully frilled and fimbriated. Colors rich and varied in beautiful combinations. Plants vigorous, with large leaves and many wonderful flowers showing at one time.

Plant the bulbs in small individual pots. The

Plant the bulbs in small individual pots. The Plant the bulbs in small individual pots. The soil should contain plenty of leafmold, some sand and well-rotted manure. Place the pots in a warm window and keep moderately moist. Transfer to larger pots when the roots become crowded and protect against strong sunlight. The velvety flowers are large and richly colored, MIXED. All the best colors in Gloxinias. No. 3007 35c each; 3 for \$1.00; 6 for \$1.75.

Calla Lily Bulbs

A Most Charming House Plant

AETHIOPICA (Largest and Most Beautiful White Calla). This is the well known and ever-popular White Calla Lily whose chaste waxen beauty has lent itself for generations to typify purity and sacredness. There is nothing to take its place in decorations for church functions, and its presence in the home is ever an inspiration. After blooming turn pot on side in shade and rest until Fall when new growth starts again new growth starts again.

No. 3049 each 35c; 3 for \$1.00 ELLIOTTIANA Large yellow bloom; spotted leaf. Flowers very large, rich deep orange-yellow, often 4 to 5 inches across the mouth; leaves are spotted and white. Handsome foliage together with remarkable flowers.

No. 3048 cach, 35c; 3 for \$1.00. No. 3050. SPECIAL OFFER. One nice bulb cach of these two Calla Lilics, ONLY 60 cts., postpaid.

MURVON'S RELIABLE FLOWER SEEDS. 25

Worth While Novelties and Specialties STANDARD VARIETIES OF HIGHEST OUALITY

We offer a comprehensive list of the standard and novelty items. Many of them having been raised specially for us by both domestic and foreign specialists. We guarantee our seed to be of the finest quality and have spared no expense to make it such. Cultural directions are printed on every package of seed we sell.

Two Rules To Success. Sow flower seeds just below the surface, never deeper than 3 times their depth or size. Pinch off the tops of the young plants to make them branch out and bloom freely.

AMERICAN BEAUTY ASTER

American Beauty Asters Beautiful Large Blossoms

ENORMOUS GIANT FLOWERS—They are of a branching habit and attain a height of from 2 to 3 ft. The blooms are borne on long stout stems. American Beauty is undoubtedly the sensation of the Astor family, bearing dense double flowers of beautiful shades. They are very easily grown and seem to thrive almost everywhere. Excellent for cut flowers.

ROSE—An exquisite, beautiful flower of a delicate rose color, of unparrelled beauty and mammoth size. No. 1223—Pkt. 15c.

CRIMSON BEAUTY—A great flower of intense crimson, it will give life to your garden. Exceptionally fine for decoration purposes. No. 1224—Pkt. 15c,

WHITE BEAUTY—When ordering asters by all means include a white aster. Either in the garden or for cut flowers be sure you have some whites mixed in to bring out the colors. Our American Beauty White is the whitest of all. No. 1225—Pkt. 15c.

PURPLE BEAUTY—A truly regal flower of a rich purple shade. It will give life and richness to your garden. No. 1226—Pkt. 15c.

AMERICAN BEAUTY MIXED-All Colors. A choice mixture. No. 1227-Pkt. 15c.

ASTERS-TALL MIXTURE

All classes and colors. If one has a large space where the cul-

All classes and colors. It one has a large space where the cuttivation of flowers is for cut flowers only, we would suggest a
liberal planting of this mixture.

Asters—Many charming varieties are included in this, and the
flowers will be in succession from early in the summer to late
in the fall. No. 1035—Pkt. 12c.

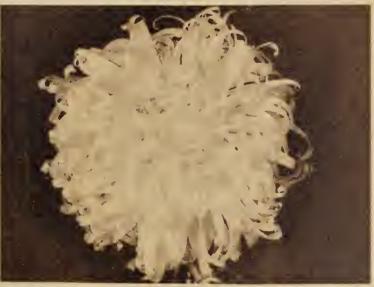

We are flower seed specialists and all seeds sold by us are of the very choicest strains, carefully tested for quality and high germination.

Charming Abutilon Flowering Maple

Very charming, see illustration. A valuable house plant and suitable for the outdoors except in extreme northern states. Our strain of seed is exceptionally choice. We have yet to find a plant which makes a better showing for indoors. It grows rapidly from seed and is soon in bloom. Handled like geraniums it is of easiest culture. No. 1228. Choice Hybrids, Mixed Pkt. 20c.

Giant Astermums They Attract Attention

See illustration. The most admired of the Aster family, unquestionably the largest. In our opinion, this is the most beautiful of them all. Strain is the finest and largest of all Astermums, the flowers measuring up to 6 inches across. On account of their immense size and chrysanthemum-like appearance they are called Astermums. The plants grow about two feet high, with 15 to 26 strong stems approximately 24 inches

Mixed Package of Seed including all the finest and richest colors of this magnificent Aster. No. 1230-Pkt. 15c.

Sweet Alyssum

A Hardy Free Flowering Annual

A favorite little annual, because of its fragrance and abundance of bloom. As easy to grow as any weed, and blooms from early summer until severe freezing weather in fall. Sow seed very early in the open ground.

LITTLE GEM—An improved variety; much larger flowers, of a pure white, and, if possible, more floriferous than the old sweet. Plant is also more robust and spreading, a single plant forming a thick mat of flowers and foliage twelve to fifteen inches across. Three and four hundred spikes of flowers in full bloom can be counted on a good plant at one time. No. 1036—Pkt. 12c.

Giant Burning Bush

A BALL OF FIRE

2½ ft. This beautiful annual bush has rapidly come into prominence. It grows 2 to 2½ feet high and resembles a close clipped ornamental evergreen. The globe-shaped or pyramidal bushes are close and compact, and of a pleasing light green color. The plant may be grown singly or in the form of a hedge or background. In early Autumn the whole bush becomes carmine or blood-red, hence the name of Burning Bush. Flowers small and numerous but not conspicuous. The beauty of the plant is in its shape and color. No. 1153—Pkt. 15c.

ANEMONE or Wind Flower

A very popular perennial. Comes in various shades of blue, white, red, etc. and growing well in almost any soil (either indoors or out). This flower is a source of real delight and should be better known to more garden lovers. Sow seed thinly and do not transplant until plants bave blossomed once and tubers have formed.

An improved double and single flowering form of the above; hardy around New York and farther north if given some protection, Mixed Colors.

No. 1229-Pkt. 15c.

Ageratums

Extremely Free Flowering

Of dwarf, bushy habit, which never attains a height of over six or eight inches This is extremely free flowering, the individual tufts of bloom are very large and dense. The most beautiful ever seen in the Ageratum family. This is very desirable for borders, edging, etc. Makes a lovely pot plant. New Hybrids

No. 1037-Pkt. 10c

Bellis Double Daisy

A Charming Perennial

Beautiful double flowers that appear in early spring if plants are slightly protected over winter. A very desirable flower for the garden.

This is an old favorite and there is nothing much prettier than this Bellis Double Daisy. It is a charming plant for both house or garden and will stand the winter outside very well if given the protection of a little litter. Blooms from early spring until well into the summer. Double mixed colors—White, Crimson, etc. No. 1062—Pkt. 12c

Basket of Gold

Basket of Gold-Grows one foot high, greatly prized for its masses of golden yellow blossoms. A bed of them in the center of a great lawn makes a beautiful contrast and will be noticed more than any other plant in the garden. Very showy and ornamental and one that is sure to please. These seeds are of the highest quality and have never failed to give complete satisfaction. We know of nothing more beautiful than Basket of Gold.

No. 1019. Pkt. 10c.

BRUGMANSIA Gorgeous

ANGELS TRUMPET

For all around satisfaction "Brugmansia" is hard to beat. It blooms in winter and in the garden in summer. We know you will be mighty proud of this plant with its large tropical leaves and trumpet shaped flowers. pure white and as fragrant as Jasmine. Our seed has been carefully saved from selected plants, and full directions are sent for planting so as to assure you of good results Will give satisfaction either as a pot or garden plant

No. 1213-Pkt. 20c.

Flowering Begonias

Here is the fringed or frilled Begonia comes in all the bright colors of the rainbow. The flowers sometimes grow six inches in diameter, and have fringed or wavy petals. They are borne upward on stiff stems and of the richest colors. Every flower lover knows that the Begonia is one of the nicest flowers for pot culture and anyone who has never had the Begonia in their collection will be more than pleased if they add this one.

No. 3057—Bulbs mixed, each 40c. No. 1184—Pkt. Mixed Seeds, 15c.

Bachelor's Button

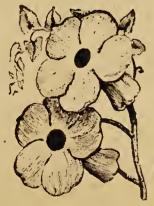

Here is a splendid perennial, showy in the garden and unsurpassed as a bouquet as they will retain their color and shape for 24 hours after being cut without any water. They come in white, rose, blue and variegated colors. They make a handsome pot plant and are easily grown from seeds which can be planted in boxes any time of the year. By all means grow some Batchelor Buttons in your garden, they are a delightful flower.

No. 1068. Pkt, 10c.

Black-Eyed Susan

An Old Favorite Greatly Improved

A lovely trailing plant with large showy flowers It will trail over the ground, forming a dense mat of foliage and flowers. Colors range through all shades of yellow, orange, buff, to pure white, mostly with jet black centers, or eyes, which are very effective. Also a superb pot plant and one that will bloom freely during winter. This is an old favorite which has been greatly improved by us in recent years. It is easily grown from seed and will become a prime favorite in your garden. All colors mixed. No. 1067—Pkt. 12c.

Ever-Blooming Butterfly Bush or Summer Lilac

So-called because it seems to attract butterflies in large numbers. We notice that it is not alone the common little yellow species of butterfly, but also the large and gorgeously colored butterflies that swarm about it. This shruh from a young plant set out in the spring or fall will produce a handsome bush, which the first year often maintains a height of four feet. It produces long graceful stems. The huds and foliage also are inhorne by the hundreds on a flower head which is frequently ten inches long. While perfectly hardy, we recommend covering the roots with manure, leaves or other suitable materials as winter approaches. Package of Seeds No. 1175, 12c.

Blue Lace Flower

Resembles Queen Anne Lace, but the florets are considerably larger and of a rare blue color. The plant is a rapid grower, bears many large clusters composed of a great mass of florets on long, strong, graceful stems. The buds and foliage also are in teresting and beautiful. The Blue Lace Flower blooms freely, in the garden from July to October or until the first hard frosts, Start seed indoors in April and transplant to open ground when seedlings are ahout two inches tall. Seed may also be started outdoors after frost is past.

No. 1100-Pkt. 10c.

GIANT DOUBLE BALSAM

Catnip or Catmint

This plant is good for many purposes. One or two plants in a pot will supply pussy all right. It is a CURE-ALL for cat diseases. Tea made from the dried leaves is good for colds and indigestion. Bee raisers plant fields of catnip, as there is more honey in a blossom of catnip than in any other flower, and is easier for the bees to extract it. It makes a pretty plant for the house and everyone who has a cat should have one or more. No. 1052—Pkt. 10c.

Balloon Vine LOVE IN A PUFF (Cardiospermum)

A graceful and ornamental annual climber very fast growing. Has dainty white blossoms followed by inflated white seed vessels which look like little balloons, It grows to a height of 12 feet and will succeed in any average garden soil. You will be well pleased with cardiospermum. It is graceful and will be an asset in your garden. No. 1233. Pkt. 10c.

Canary Bird Flower

A dainty vine with beautiful cut leaves and pretty delicate flowers of a clear canary yellow, From the color of its blossess and place. of a clear canary yellow, From the color of its blossoms and also from a fancied resemblance of their shape to a bird with wings expanded, the plant obtained its common name. A very pretty vine for the window. Can be planted at any time of the year and are very easily grown. We may really class the Canary Bird Flower as one of the most popular of the vines.

No., 1056-Pkt. 10e.

Giant Double Balsam

Should Be in Every Garden

A favorite garden flower that should be in everybody's garden.

The gigantic flowers are double and perfect. It is not uncommon to see more than 500 of these magnificent flowers upon a plant at one time, the branches being perfect pyramids of bloom. The Balsam is one of the most beautiful and easily grown of all garden annuals.

It succeeds best in a good rich soil. They grow 2 feet in height. They should be protected by litter over the winter months. The seed should be sown in boxes or flats indoors in April afterwards transplanted 12 to 18 inches apart in the open ground in May. If the seed is to be sown outdoors start the seed in May where the plants are to re-

Mixed Colors—dazzling in brilliancy large beautiful buds, double and perfect. No finer mixture to be obtained. No. 1041. Pkt. 10c;

Blue Lily of the Nile

A splendid ornamental plant that has never failed to please, with bright evergreen foliage spreading 3 or 4 feet and surmounted with gorgeous spikes of bright blue flowers which remain in bloom for a long period. Blue "Lily of the Nile" is with-out doubt one of the best and most desirable tub plants for porch or lawn. From our high quality seeds those plants are easily raised and we assure you that you will be more than pleased with the results. They should be wintered in the cellar or green-

No. 1047-Pkts. 15c. Postpaid.

Chinese Bartonia

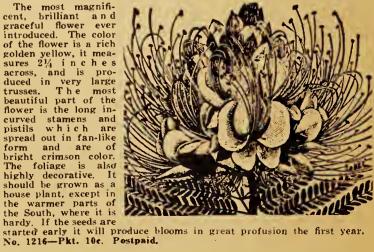

One of the most showy of all-hardy annuals The plants grow 18 inches to two feet high, with thistle-like downy leaves. It is very easily grown, thrives any-where and the plants begin to flower early and bloom continuously throughout the summer. Our strain of this seed has been very carefully selected. By all means include this fine little flower in your garden. It will add interest to your collection of flowers.

No. 1042-Pkt. 10c.

Bird of Paradise Magnificent Brilliant and Graceful Flowers

The most magnifi-cent, brilliant and graceful flower ever introduced. The color of the flower is a rich golden yellow, it measures 2½ in c h e s across, and is pro-duced in very large trusses. The most beautiful part of the flower is the long incurved stamens and pistils which are spread out in fan-like form and are of bright crimson color. The foliage is also

Catch Fly Plant

It has two plump leaf lobes, set nearly at right angles to each other, like the pages of a book held open, each lobe being fringed at the outer edge by a single row of spikes thorn which interlock like the gates of a prison behind the unfortunate insect which chances to alight upon the surface of the leaf or even to brush lightly against one of the three tiny filaments which project upright of each lobe and which warn the plant of the presence of its live prey. A

most wonderful plant which everyone should have to drive away the flies. No. 1142-Pkt. 10c;

Clarkia

One of the prettiest and showiest of hardy annuals that bloom freely and have flowers of such various bright colors that a bed of them in full bloom is a beautiful sight; useful for hanging baskets, vases and edgings of beds of larger growing plants. Sow outdoors in early spring and grow in partial shade. The plants keep a continuous bloom mthroughout mid-summer to Inte autumn. This is one of the newest and latest varieties and it is enjoying a wonderful demand, for there is no flower more handsome or more easy to grow than Clarkia. If you are a lover of conclude this in your

you are a lover of handsome plants be sure to include this in your order. No. 997—Clarkia, Pkt. 10c.

Ostrich Plume Chrysanthemums

and no matter how many plants you raise from this seed you will have no two alike. All colors, shapes, sizes and varieties. They grand and are very easily raised. Seeds germinate freely and quickly and the plants, being of hardy and robust nature, make a rapid growth. We offer only first quality seeds which will grand results. Sown in the spring will produce large vigorous plants by fall.

Double Golden Yellow, No. 1182, 15c. Ostrich Plume Chrysanthemum, 1183, 12c.

Japanese Giant Chrysanthemums

Nothing is more beautiful as house plants, in the late fall and early winter, than these large fluffy Japanese Chrysanthemums. For massive hlooms, grandeur of colors, ease of culture and certainty to flower there is no plant that will surpass them. The endeavor of nearly all growers has been to introduce varieties which will produce the largest and finest blossoms for exhibition purposes. It is from these varieties that our seed is saved. The seplants are easily grown from seed. Almost all the new and striking varieties are the result of plants grown from seed, and the amateur is as liable to originate new and splendid varieties as is the professional florist. They are of the easiest culture and always give satisfaction as house plants. The blossoms you get will surprise you with the odd and beautiful forms of the flowers and abundance of bloom. If

get will surprise you with
the odd and beautiful
forms of the flowers and
abundance of bloom. If
you want a magnificent
collection of these gorgeous Chrysanthemums—red, white, yellow and pink—
you will make no mistake in getting seed of our genuine large flowered
Japanese varieties. For best results, plant seed now in pot or box in the
house. No. 1234. Pkt, 15c; 2 for 25c.

CYCLAMAN

(Alpine Violet) A Most Satisfactory House Plant

This is a charming house plant with beautiful foliage and rich colored fragrant flowers. Universal favorite for winter and spring blooming. Easily grown from our seed, as we offer a fine strain of large flowered sorts. White, Red, Lilac, Violet, Rose, etc.

Our strain Cyclamen seed is the finest to be had, as we have made a specialty of this flower for several years and secured the finest improved sorts. All our Cyclamen have most elegant variegated foliage and very large and perfect flowers of the most delicate and charming colors. Finest mixture. No. 1050 Pkt. 20c.

Grow Some Candytuft

Everyone should Grow Some Candytuft

These Candytufts are of fine habit and profuse bloomers. They soon flower from seed and remain long in beauty. For massing in flower beds and borders and for edgings they are admirably adapted, while for cutting the flowers are greatly prized.

Queen of Italy—8 in. The plants form dwarf bushes which are covered with very large pink blooms. No. 1046.

Pkt. 10c.

Mixed, all colors No. 1049. Pkt. 12c.

CYPRESS VINE or CARDINAL FLOWER

This is a recently introduced form and is one of the most popular, if not the most popular, of the annual climbing plants. It grows to a height of from 10 to 20 feet. It is a slender climber of very quick and easy growth, having small finely divided fern-like dark green foliage. The vines are thickly starred with small, brilliant, fiery red flowers of the morning glory type. It makes a very desirable plant for small ornamental trellises or it may be grown on wire supports, Very useful for porch or window boxes to grow around porch columns or windows. It is easily grown The seed should be planted in early spring as soon as frost is out of the ground or when the trees are starting out in leaf and all danger of frost is past. Undoubtedly the most beautiful of all annual climbers. No. 1204—Pkt. 10c.

CACTUS COLLECTION

No flower collection is complete without one or more cactus among them. This picture shows 20 different kinds in jardinieres. They grow all sizes and shapes, some of them very pretty and some grow four feet tall and live several hundred years. They require no attention as you cannot kill them. From a package of seeds you can raise a great many and you can sell them or give them away to your friends, keeping the best for yourself. No. 1051. Pkt. 20c.

PLEASE TAKE NOTICE

We prepay the postage or express charges on all seeds, bulbs and plants described in this catalog except at the prices which are plainly marked NOT PREPAID. Everything we list is of the finest quality and will give satisfaction to the most critical.

CANTERBURY BELLS

Perfect in Form and Color

A most useful and attractive hardy plant, profusely covered with large bell shaped flowers ranging from blue to white. They are really beautiful and are well deserving of the popularity they have enjoyed for generations. You will never regret planting these attractive flowers in your garden. Our strain of this seed is of the very finest and will produce strong plants with an abundance of blossoms. Some will often flower the first year from seed if sown indoors in the very early months of spring. We advise however that they be started outdoors during the middle of spring usually about April, either in a box or seed bed. After the first frost in the fall the plants should be covered lightly with litter to protect them during the winter months. No. 1007 Canterberry Bells. Pkt. 12c.

CARNATIONS

The Carnation has long been prized as a hardy border flower, and it certainly serves all the praise lavisbed

THE DIVINE FLOWER

upon it. Being hardy, free-flowering and easily grown, either in flower-beds, borders, or pots, it is one of the most valuable and beautiful of our summer flowers and a favorite with everyone. Plants raised from seed bloom more profusely than propagated plants and are therefore to be preferred. This Wilson Carnation is the PEER of them all. Our assortment includes all the colors and stripes, can be planted in a box in the house any time.

(mixed).

Celosia, 12c Pkt.

COLEUS SEEDS

The handsomest foliage plant obtained from seeds. The leaves are often ten inches long and eight inches wide, they are heart shaped and handsomely crimped tooth and frilled. Their color combinations are remarkably rich, comprising all the reds, metallic, greens and yellows to deep black. A handsome plant for the house or for the border of beds. Easily grown from seed and can be increased by cuttings. Coleus Seeds, No. 1171-Pkt. 20c.

CIGAR PLANT Makes a Very Nice House Plant

Attractive and Odd

Here is a very rare plant, grows pretty red flowers that look like cigars, have a white end to represent the ashes of the cigar. They grow two feet high and make a very nice house plant. We are one of the very few seed houses who raise this seed and we have sold it for many years with very good success. If you are looking for plants that are a little different from your neighbors you would do well to try this seed. this seed.
No. 1176 Cigar Plant. Pkt. 20c.

Fast Growing Wild Cucumber To Cover Unsightly Places

This is the fastest growing climber on our list. If you have any unsightly spots around your garden you wish to hide, Wild Cucumber will hide them for you and will do

it quick. It is a remarkably pretty vine with clean bright green foliage, thickly dotted over with pretty, white, fragrant flowers, followed by an abundance of ornamental and prickly seed pods. It is splendid for covering trellises, old trees that have died, or stumps, fences, etc., also very useful to sow on banks as it not only covers the banks but acts as a soil binder.

No. 1081 Pkt. 12c; 2 Pkts. 20c.

COSMOS Giant Early Flowering

A MASS OF BLOOM

This beautiful annual is one of the most showy and useful of our garden plants. Plants are very hushy and compact, Flowers on long delicate stems and are similar to single Dahlias. Foliage very finely cut. Ex-

cellent for cutting.

EARLY FLOWERING MAMMOTH
These are the only kind we would recommend planting north of Middle Illinois, as the late, or Giant flowered varieties are nearly always caught hy early frost. We have dropped the ordinary early flowering varieties which produce small flowers and now offer these Mammoth Early Flowering sorts. Early Flowering Mammoth. Mixed No. 1043—Pkt. 15c.

Jerusalem Cherry

A very showy house plant, loaded with ornamental "cherries" which turn to glossy scarlet when ripe. Fine for Thanksgiving and Christmas decoration. The bright cherries, which are not edible, will hang on the plant all winter; foliage always green and very ornamental

No. 1211 Pkt. 15c; 2 Pkts. 25c.

Columbine (Perennial)

Very attractive long spurred varieties, Aquilegias are among the most beautiful of spring flowers. We do not know of any hardy plant that is more easily handled than the Columbine. It is one of the best loved hardy perennials and a typically American flower of which we may justly feel proud. The plants will "self sow" and continue their beauty from year to year. This plant has an AIRY GRACE which can hardly be duplicated in any other flower. Columbines are very generous in their blooms and admirably adapted for cut flowers, Seed should be sown in the ground in early spring and they will often bloom the same season, or they may be planted the latter part of August for spring flowering the following year. No. 1172. Prize mixture. Pkt. 15c.

Digitalis (Fox Glove)

For Your Garden

Giant Double Portulaca

One of the showiest of the low growing annuals of very best culture, very useful for rockeries or hanks, they thrive best in a light loam or sandy soil in a well exposed, sunny situation. Their bright, richly colored flowers make them ideal for massing in beds or borders, it is frequently used to sow broadcast over sunny banks, etc. When sowing this seed, it is advisable to mix the seed with three or four times its bulk of dry sand or very dry, pulverized soil, this will permit an even and easy distribution of the seed.

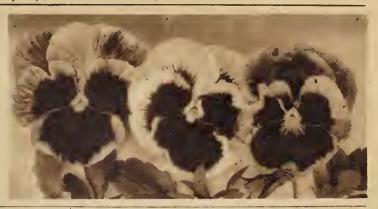

DOUBLE MIXED. Beautiful rose-like blossoms. A large percentage will come perfectly double, scarlet, crimson, white, yellow, etc. A very carefully selected strain. No. 1212. Pkt. 10c.

Giant Pansies Very Choice Select Strains

Pansies are to be considered the most general favorite of all the flowering plants. They are too well known to need any description. The most important essential is the seed be true and high class. Our strain while limited are of the very choicest of their kinds and will be sure to please.

Chicago Parkes Bedding Mixed—Great Diversity of colors, free flowering blossoms slightly smaller than the Giant sorts. No. 1111—Pkt. 12c.

Orchid Flowered Mixed—Rare light shades, large frilled flowers, very attractive, No. 1112—Pkt. 15c.

Primula Obconica, Very Choice

Charming Rich Colors A Very Choice Strain of Fine Quality Seed

Very remarkable improvements have taken place of recent years in this type of primrose and it is without a doubt one of the most beautiful of the primulas and also the easiest to grow. Our seed is of the very finest strain.

est to grow. Our seed is of the very finest strain,
They germinate freely and quickly and the plants being of a robust nature make rapid growth. We know that primula obconica will more than please you in every way. Colors are very rich and showy and it makes an ideal pot plant for the house. Choice mixed seed. No. 1217, Pkt. 20c.

Hardy Perennial Phlox

Very easily grown from seed, in fact perhaps the easiest of all. It thrives in almost any kind of soil if given a sunny position. A light rich soil, however, will

give the maximum results. Seed should be sown in the open ground as soon as danger of frost is past. The Phloxes are the showiest - and most easily raised of all perennials, Every garden should at least contain some of these very popular flowers. We know of nothing which produces such a continuous supply of the most attractive flowers in such a marvelous array of colors.

No. 999—Pkt. Mixed colors. 15c.

Star of Bethlehem Stellate Phlox

No garden is too large or too small to be made more beautiful by the plentiful use of this lovely flower. It is a good type for everyone, succeeding in almost any average garden soil.

The Phloxes are the showiest and most easily raised of all Annuals. We know of nothing which produces such a continuous supply of the most attractive flowers in a most wonderful range of colors. All the tints of the rainbow are represented with all possible variations of stripes, veins and eyes of contrasting shades.

No. 1201-Pkg. mixed seeds 12c.

Fringed Double Petunias

Petunias will produce their handsome, sweet-scented flowers in their delicate and gorgeous colors throughout the whole summer.

MIXTURE OF DOUBLE PETUNIAS

This is a mixture of the best large flowering and fringed double petunias, every one knows only a certain percentage of double flowers may be expected from seed, but our mixture will produce from 20 to 30 per cent of doubles. While the remainder will be choice large single flowers. The weaker seedlings should be carefully saved, as those invariably produce the best double flowers. No. 1150. About 40 Seeds, 25c.

Everlasting Strawflower

This rare flower is an ornament when growing and is especially prized for winter decoration in vases as they remain just the same after they are cut. Flowers intended for drying should be gathered when partially unfolded and suspended with heads downward in a cool place for a while, they can then be placed in vases and will remain the same indefinitely. No. 1157—15c.

Sweet William

Sweet William-18 in. to 24 in. The varieties are an improvement on the old-fashioned kinds, inasmuch as the colors and size of flowers are far superior, being grown from select seed Sweet William looks well in solid beds or masses and requires a good, rich, well-manured soil to grow them to perfection; excellent border plants and fine for cut flowers. This is sure to please in the varied and unique coloring and markings of the flowers. If you plant out one perennial plant this.

No. 1168-Pkt, 15c.

Tobacco Plant

Very few know how tobacco is grown and what a stately plant it grows from 5 to 8 ft. high and has a beautiful white flower on the top of it, only one flower on each plant, from that flower comes the seed, from the seed they extract oil that stops a toothache. Plant any time of the year in boxes in the house, when four inches high transplant to pots or to the garden. From one package of seeds you can raise 30 lbs. of fine smoking tobacco. A few planted among other flowers keeps the destructive bugs away from the flowers. No. 1087. Pkt. 12c.

Filfera or Weeping Palm

Grown from seed makes a very fine showy Window Palm Placed in a corner of the room it Placed in a makes a wonderful showing, needs no petting to succeed, stands dust and dry air, lack of sunshine does not bother it. It is very ornamental with its elegant fan-shaped leaves of a dark rich leathery green, Picturesquely fringed with long threadlike filaments along the segments of the leaves. The plant is a compact grower, well adapted to pot culture, succeeding in any situation with fair treatment. May be grown in pots or in the open ground. No. 394—
Filfera, Pkt. 20c.

SALPIGLOSSIS Painted Tube Tongue

Undoubtedly one of the most attractive annuals and should be in every garden. The blossoms are tube-shaped much like a Petunia but rivalling the latter in the beautiful colors displayed. Each flower is veined with a glint of gold, and it is the only flower to our knowledge possessing this knowledge possessing this codd characteristic. The Salpiglossis is deservedly known as the Orchid of Hardy Annuals. If you are not familiar with this try one package and we know your garden will always contain it after you have seen it.

Murvens Special Mix-ture—This mixture is put up by ourselves of separ-ate varieties and is the best mixture obtainable. No. 1021. Pkt., 12c.

Spanish Bayonet (Yucca) Great Stems of White Creamy Flowers

A single panicle of this charming plant often contains as many as 300 florets. It is a very tall and stately growing plant, having long swordlike foliage and immense stems of creamy white flowers. One of grandest evergreen plants for the lawn or as a background for your flower garden. Extremely ornamental and effective. Thrives in almost any position and is easily grown; it will be a source of delight and pleasure to have this plant in your garden, and we highly recommend this seed. No. 1187-

Mammoth Flowering Stocks

A Magnificent Strain

Can you imagine a flower, growing from seed, to produce, in 10 weeks, a plant 3 feet tall with a cluster of flowers like this picture shows, 12 inches or more long? This plant has everything required of any plant, easily grown from seeds, flowers early, very handsome, very fragrant, good for a pot plant, for beds or edging of lawn. Keeps in bloom all summer—what more can you ask of any plant? No other flower has so many good qualities. Fine for cutting for bouquets. Flowers are exquisitely shaded and are like dense tufts of petals. Very easily grown from seed. Sow outdoors as soon as frost is over.

No. 1235—Pkt. 10c.

Japanese Sunflower

These comprise plants of majestic growth and immense showy flowers suitable for shrubberies, woodlands, wild gardens, and subtropical gardening; the dwarf kinds with smaller flowers are charming when grouped in mixed flower borders. Excellent for cut-

Gailardia—Flowered or Red Sunflower—

4 to 8 ft. Some flowers of rich chestnut red color, others tipped with yellow and others slightly washed with red. The flowers vary from a few inches to nearly a foot in diameter and are of good form, usually having a mall disc, and often two rows of long, slightly curled rays. No. 1990. Pkt. 10c.

Giant Snapdragon

A Marvel for Size

The Snapdragon is an old The Snapdragon is an old time favorite. It is a perennial and with a little protection of litter during the winter months will last for several years. Within the last few years they have become immensely popular. They are undoubtedly one of the most valuable and effective flowers that can be easily grown valuable and effective flowers that can be easily grown from seed. Very good for cutting. Our mixture of this seed is extremely fine and is made up from choice named sorts only. The flowers are of extraordinary size of exceptionally rare colors. Sow the seed thinly, early in May or latter part of April. The plants should be in bloom in July and continue thru to November.

No. 1197. Pkt, 15c.

No. 1197. Pkt, 15c.

Shoo-Fly Plant

Shoo-Fly Plant, House-It is said that flies will not stay in a room where it is grown if they can conveniently escape, and our tests show such to be the case, though what there is about it that repulses them is not clear, as the plant or flower has no odor. Aside from this more remarkable quality it is a beautiful flowering plant, and blooms in a short time (60 days) from seed. It is particularly valuable as a winter bloomer, the blossoms being large, cupshaped and of a lovely light blue color, with a white center. It is a profuse bloomer in pots both summer and winter.

True Irish Shamrock

A Novelty for Your Garden

This is the National Emblem of Ireland. This popular TREFOIL is easily raised from seed and will grow in practically any soil. The seed we offer is imported by us directly from Ireland and we guarantee it to be the real shamrock. Nothing will be appreciated more by your friends on St. Patrick Day than a gift of real shamrock.

No. 1141-Pkt. 10c.

South African Daisy

VERY POPULAR AND EASILY GROWN

Easily grown from seeds. Branch and bloom profusely. They grow 12 inches high, begin blooming early and continue to do so until frost. They were originally all golden yellow, but by blending we bave produced white, salmon, orange, sulphur, etc. This is a very desirable plant and should be grown by every flower lover. It is undoubtedly one of the most desirable of all the dalseys, and once grown never fails to find its place in the garden. No. 1017-Pkt, 12c.

Mammoth Verbena

Verbena is one of the most popular garden annuals and lends itself willingly to many uses. For beds, borders, mounds, vases and window boxes it is particularly fine, and is frequently used for an undergrowth to tall plants like lilies. The clusters of showy and often fragrant flowers are horne in constant succession from June until frost,

Mammoth Mixed—Producing in handsome umbels flowers of large size in beautiful shades of white, rose, scarlet, blue, purple.

No. 1155. Pkt, 10c.

Charming Wisteria Large Panicles of Gorgeous and Fragrant Flowers

Undoubtedly one of the finest climbing plants known. This is the well known hardy perennial vine; of luxuriant and rapid growth, reaching 15 to 20 feet in a single season. Its clear foliage and immense panicles of fragrant flowers borne in great profusion make it one of the most charming climbers on our list. This is a worth-while plant and is perfectly hardy, it does not bloom until the second year; grows 50 feet. No., 1200—Pkt, 10c.

Brilliant Chinese Wool Flower Rich and Showy—Grows Easily From Seed

The Chinese Woolflower-Plants grow to three feet high, the bloom starting early with a central head, round and globular, which often reaches the im-mense size of two feet in cir-cumference Scores of branches are thrown out, each bearing a ball of scarlet-wool. All of these branches support numerous laterals with small heads of bloom mixed with fresh green foliage, so that a plant looks like an immense bouquet splendidly arranged and set in the ground. None of the blooms fade in any way until hit by frost; but all continue to expand and glow with a deepening richness of color, a dark crimson-scarlet.

Dwarf Plumost Mixed. No. 1154. Pkt. 10c.

Scabiosa (Perennial).

A Specially Handsome Flower

Scabiosa or Pin Cushion flower is another of the old fashioned favorites we all so much enjoy. The sweetness of the plant causes it to attract the most beautiful butterflies, this alone is sufficient reason why it should be in every garden, as what could be more beautiful than a garden in which may be seen these gorgeous and beautiful living things. The flower stems are long and the blossoms keep well in water. The flowers are exquisitely shaded like dense tufts of petals. They grow to a height of 2½ feet and if seed is sown in early spring as soon as danger of frost is past will bloom in July and continue thru until frost.

Grow Some Violets

One of the most beautiful, delicate appealing flowers on earth. Everyone is familiar with this charming flower, its delightful fragrance is not equalled by any flower grown. Violets have always been very expensive at florists and this has prevented their being as popular as they should. Careful experimenting during the last few years with different seed has enabled us to contract with a famous English grower having the finest violet seed known and remarkably easy to grow in the garden.

No. 1010 Pkt. 10c.

Grow Water Lillies

Water Lilies—Red and blue flowered Zanzibar Water Lilies from seed. The flowers are beautifully shaded with deep rose-pink or rich skyblue. Seed should be planted in the early spring in a shallow dish of water partly filled with rich soil. They should be placed in a warm sunny window and when young plants are well started they can be transplanted to large tubs about April 1st.

No. 1214-Pkt. 25c.

Gypsophila

Statice

Statice

Choice Mixed

Statice, also called Sea Pink, is extremely showy, with large clusters of blooms carried on graceful stems. The plants are easily grown from seed and do well in almost any kind of soil. The flowers may be cut and treated like Everlastings, drying them in a cool and the place being the part of the stems to treated like Everlastings, drying them in a cool and shady place, hung up on the stems to keep their natural position. Sow the seed thinly indoors during February or March and transplant; with a ball of earth adhering to the roots, into the open when the maples are in full leaf. Before sowing pick the seed clusters that the country of the seed clusters. the seed clusters apart to free the thorny hard hulls from the thin long brown seeds. Sow both in case some of the seeds were left in the hulls, and cover with ¼ inch fine soil.

No. 1218. Pkt. 10c.

Giant Shasta Daisies

KING EDWARD. 3 ft. July-September. The largest of all daisies, flowers frequently mea-suring more than 5 inches across. An im-provement over the common Shasta Daisy, and will stand the winter where the old variety freezes out. The flowers are pure white, with long stems: a beautiful cut flower, remaining in good condition a week or more.

No. 1231 Pkt. 10c. Postpaid.

Gypsophila Baby's Breath (Annual)

Elegans Grandiflora Alba White

A quick prower with myriads of small, open, bell-shaped flowers. Does well in any soil and an open situation. Fine for planting along walls and sunny slopes. The plants grow 10 to 15 inches tall and are excellent for bunching with other flowers. Sow the seed the latter part of April, The plants are covered with small, star-shaped, pure white flowers on dainty stems. Very graceful. No. 1101. Pkt. 10c.

Calceolaria (Pouch Flower) (House Culture)

A most interesting and beautiful pot-plant for the greenhouse. It is a native of Peru, which, with proper care, will grow into fine large bushes with many showy pocket-like flowers of various colors. Some of the flowers are beautifully spotted and tigered, others are sclf-colored in yellow or red. They are greatly admired. Sow the very small seeds carefully in a box containing a rather sandy leafmold mixture. Moisten the soil before sowing and cover with a pane sowing and cover with a pane of glass to prevent too rapid evaporation. Trans-plant and keep growing in a moist air registering 42 to 48 degrees Fahrenheit.

Hybrida Grandiflora, Finest Mixed. No. 1195 Pkt. 15 cts.

Platycodon (Japanese Bell Flower)

Here is one of our best blue hardy perennials. Grows 2 to 3 feet high. It is one of the best for general planting. Very free flowering, producing showy flowers all thru the season. Very interesting and striking. Easily grown. Seed sown in April will bloom in August. The flowers are star shaped and expand to 2 or 3 inches in diameter. If the seed is started early, inside, it will bloom constantly from July until late Septem-

Platycodon is becoming exceedingly popular and more in demand every year. Our seed this year is of an exceptionally fine strain. No. 1215 Pkt. 10c; 3 Pkts. 25c

Brachycome Iberiaifolia

(Swan River Daisy)

Very attractive, growing about a foot tall. The plants form compact little bushes branching close to the ground and bearing small Cineraria or Daisy like flowers on the end of each branch. The color of the flowers is bright blue.

ers is bright blue.

The plants thrive in a fairly rich, porous soil, where they get plenty of sunshine. They are well suited for dwarf borders and for filling in open spaces in the perennial or annual flower bed. Sow the seed thinly and barely cover from view when the maples are in leaf, or start indoors the middle of March and transplant to the garden the latter part of May. Makes a lovely low border to taller growing annuals.

No. 1232. Pkt. 10c.

Wild Flower Collection

Each package contains about 100 varieties of hardy flower seeds mixed together, and wherever planted will insure something new almost every day. Is suitable for sowing in shrubbery, and in beds on which no care will be bestowed, or even for sowing in exposed situations, where wildness is preferred to order and precision. To those who can not bestow the necessary

care required in a neatly laid out flower garden, the "Wild Garden" presents a good substitute. This is without question the Grandest Collection of Beautiful Flowers. They will produce a perfect cloud of bloom and fragrance from earliest summer until the snows of winter. New beauties and wonders will open up every day. It will be a continual surprise to see the odd and curious-as well as old favorites, constantly appear. You can have bushels of blossoms for bouquets, vases and to give away. Gorgeous Combinations of Colors. No. 1143. 20c.

Giant Flowered Zinnia

This wonderful type continues to create a furor among our customers on account of its beautiful formation and gorgeous colors and more particularly its colossal size. The colors range from the exquisite light shades to the deepest strawberry red. The flowers are gigantic in size, frequently five or six inches across, borne on long stems up to three feet high. The super-abundance of glorious large colossal flowers repay you a hundred fold.

No. 976. Pkt. 10c.

SALVIA Scarlet Sage

Fall. For pot culture, for cutting and for borders, etc., it is very valuable. Sow seed in window boxes or frames in March or April and set the plants outdoors the latter part of May or sow outdoors not before June 1. Salvia will grow and bloom profusely in any light rich soil the first year. They are treated as annuals.

No. 993 Salvia-Pkt. 12c.

Giant Spencer Sweet Peas

Producing as they do the most beautiful blossoms in shape, size, color and fragrance, SWEET PEAS well deserve the place they have earned in the hearts of all lovers of flowers. Our strains embrace only the NEW BUTTERFLY or Spencer varieties. Orchid flowering. They produce a gorgeous array of color with a delicious fragrance. Armfuls of these delightful flowers may be cut for bouquets or home decorations. The plants are of vigorous growth and the flowers are extraordinarily large. They radiate life and happiness to all who grow them. They are easily grown. Full cultural directions being printed on each package. The flowers should be picked frequently.

Resurrection Plant

It Was Discovered In The Holy Land and is now found in and is now round in the interior of Mexico. When im-mersed in water it unfolds out ward, very slowly first, very slowly first, then faster as the moisture permeates the plant. In a short time—in fact, while you are look-ing at it—from a dry and withered ball, seemingly dead, the whole plant has resurrected, come to life, flattened out in to a plate-like shape and trans-formed into a lovely rosette of beautiful

rosette of beautiful green, veively moss, It will grow anywhere if it is planted in a moist will grow anywhere if it is planted in a moist place in the shade, but, being nearly or fully matured when gathered, it need not be planted at all, as it will keep anywhere, in a box, or trunk, or any dry place in the house. This plant is one of the greatest wonders of the plant kingdom; a rare and beautiful curiosity in the store or parlor, in the heat of summer, in the cold of winter. Sent postpaid to any address for 15e.

Raise Some Peanuts

Peanuts can be grown in every state in the Union, require no more attention than potatoes, Parents should give the boys a chance. Just think of growing all the peanuts you want to eat and have some to sell or give away. Directions for planting: Shell nuts carefully so as not to break the inside skin. Plant as soon as ground warm, three feet

apart, three or four in a hill, cover two inches deep. Soil should be deep and mellow. Produces fifty to seventy-five bushels to the acre. Package of seeds 12e.

Yokahoma Plant Food Gives Results

Produces Quick Vigorous Growth

This photo shows exactly the change Yokohoma makes in potted plants. We experimented ourselves, and the results were wonderful. Two plants of the same size and strength were used and given the same care. One was treated with Yokohoma, and within a few weeks almost doubled in size, as shown in illustration, and was a perfect specimen of healthy plant life, and we cannot recommend Yokohoma too highly to all who have plants of any kind. It will make your flower garden a place of real beauty, with large, fragrant flowers in abundance, keeping them in bloom long into the fall. It will make your vegetable garden productive, your plants and vines bending with luscious fruits and crisp vegetables which will mature early. It will keep your house plants fresh and beautiful and will make them bloom continually throughout the winter months. Yokohoma is the result of scientific research, after years of study and experimenting. It is a complete fertilizer, clean and efficient. Yokohoma to a plant is the same as blood to a human being, giving life and strength. Order a box today and use it on your house plants, roses, ferns, lawn, fruit, shrubs, flower and vegetable garden; then watch the wonderful results. Full directions with each box. Clean and easily applied. Keeps the soil rich but odorless, acts as disinfectant and kills cut worms. It is highly concentrated. It makes no difference how healthy or delicate your plants may be, Yokohoma will bring out new foliage and flowers and cause a marvelous transformation. Sample trial size, 15c; house plant size 30c; garden size,
